PREFACE.

Dr. John Fryer edited an EDUCATIONAL DIRECTORY FOR CHINA in 1895.

Rev. J. A. Silsby edited a DIRECTORY OF THE EDUCATIONAL ASSOCIATION OF CHINA in 1903.

The first was of very valuable service for a few years after its publication, but is now out of date; the second includes only the work of the members of the Educational Association, so that quite a number of schools are not reported at all.

The present volume is an effort to bring the information concerning educational work in China up to date. The general form of Dr. Fryer's Directory has been followed in order to facilitate comparisons, and a statistical summary has also been added with the same idea in view.

The work was undertaken at the request of the Executive Committee, and last May a circular letter and blanks were mailed to at least one person in each station of every mission in China recorded in the Directory of Protestant Missionaries. About eight hundred letters were sent out; a large number failed to report at all, but those received are the basis of the following volume.

The delay has been occasioned by the slowness with which reports have come in, and also by the fact that the manuscript report of each mission has, when possible, been submitted to some representative of that mission for revision and correction.

Throughout the whole work Rev. J. A. Silsby has rendered most valuable assistance and advice in all of the details, and he and Dr. A. P. Parker have kindly read the entire proof as the book has gone through the press.

Rev. JOSEPH S. ADAMS.

Miss ANNIE L. CROAL.

Mr. Adams writes :—

The American Baptist Missionary Union has four day-schools, primary grade, in connection with its work in Hanyang Fu. Average, 30 scholars in each, four teachers; superintended by Miss Annie L. Croal. They are partly supported by the native church. We have also one primary school, expenses entirely borne by native Christians in connection with the Baptist Church at Kiazü Hien, in Wuchang prefecture. 40 pupils.

Our school work is in its infancy, and our advanced scholars are sent to the higher schools in other Missions, or to our hospital, for training as assistants, etc.

Rev. ASHMORE, Jr.

Rev. G. H. WATERS.

Miss HELEN HYDE.

Miss MELVINA SOLLMAN.

In this Mission there are four boarding-schools.

(1). Theological School at Kak-chieh, Swatow. All the male missionaries share in the teaching; the senior missionary acting as Dean of the Faculty. There are no fees charged. The courses of

study include Biblical and Pastoral Theology, Old and New Testament Exegesis, Homiletics, Church History, Evidences of Christianity and Biblical Geography. There is 1 native teacher, and 30 students have been under instruction during the year from October 1st, 1903—June 1st, 1904.

(2). The Women's Training Class for Christian Work. This is a free boarding-school for promising women of the Swatow district, under the charge of Miss Helen L. Hyde and Miss Melvina Sollman. The Bible and Biblical subjects, Pilgrim's Progress, the Hymn Book and Singing are taught. There is 1 native teacher, and at present 21 students, averaging 46 years of age. Since 1873 there have been 359 women under instruction.

(3). Boys' Boarding-school of Primary and Intermediate Grade, charging fees, and teaching the Bible, with elementary science, catechism, Chinese classics, etc. It is under the charge of Rev. Wm. Ashmore, Jr. There are 4 native teachers, and at the present time 49 scholars. Since the school was opened in 1874 there have been 379 boys on the roll.

(4). Girls' Boarding-school of Primary and Intermediate Grade, under the charge of Mrs. S. B. Partridge. Fees are required from all the pupils. The subjects taught are in general the same as those in the Boys' Boarding-school, with the omission of the Chinese classics and the addition of Romanized colloquial and elementary English.

There are 4 native teachers and 59 scholars, averaging 14 years of age. Since the school was re-organized on its present basis in 1878 there have been 287 scholars under instruction.

(5). Day-schools. Eleven day-schools for boys and 1 for girls, having 11 male teachers and 1 female, 146 boys and 4 girls enrolled.

4. AMERICAN BOARD OF COMMISSIONERS OF FOREIGN MISSIONS.

(ESTABLISHED IN 1830.)

Chihli Province.

Pao-ting-fu.

(1). BOYS' SCHOOL AND ACADEMY.

Rev. H. P. PARKINS.

Rev. E. E. AIKEN.

2 native teachers (male) and 50 students. Mr. Parkins writes: "Only English is taught by the foreigners; all other branches are taught by the two natives.

Our work goes back to 1873, and the school is about as old. The school fits for T'ung-chow College. Bible, Four Books, geography, arithmetic, and singing."

(2). DAY-SCHOOLS.

"We have in this compound 1 mixed day-school, taught by a woman, with about 5 boys and 5 girls. In the district of Ch'ing-yuan one girls' school taught by a woman; average attendance 9. These we support, and no others; but in our out-stations the people are sometimes organizing schools which have some of the Christian books or sending them to the village schools and letting them get their Christian instruction from the various meetings of the church. I do not think that thus far our books are much used in the ordinary village school."

Peking.

Girls' Schools.

(1). BRIDGMAN SCHOOL. 協和女書院.

(This name is to be changed soon to "Union College for Women" or something similar.)

Miss LUILLA MINER, *Principal*. Science, Physiology, and Mathematics.

(2). Boarding-school for girls, North Church, Peking, in care of Mrs. Jen, wife of native pastor; 15 girls. Prepares for Bridgman School. Partially self-supporting.

(3). Four small day-schools for girls, located at different country stations and taught by wives of helpers or Bible women. About 20 girls in attendance.

(4). Four day-schools for girls, 5 female teachers and 36 girls enrolled.

(5). In addition to these day-schools, Mrs. Stelle has under her care two elementary *boarding* schools for girls, one located at the North Congregational Church, Peking, with 5 boarders and 11 day pupils; the others located in the city of Cho-chou, with 17 boarders and 3 day pupils. The daily teaching in these schools is done entirely by Chinese teachers—female—one in each school.

(6). Kindergarten, under Mrs. Stelle's direction, with 14 girls and 6 boys.

Boys' Schools.

(1). SOUTH CHURCH BOARDING-SCHOOL.

Rev. W. S. AMENT.

Sixty students; they pay a small tuition and half their board. This school prepares for T'ungchow Academy and College.

(2). North Church Day-school; 21 boys. Primary grade, pay tuition.

(3). Seven country day-schools for boys, largely self-supporting. 80 boys enrolled. In care of Rev. W. S. AMENT.

(4). Mrs. AMENT teaches English to 10 boys in the South Church Boarding-school.

Tientsin.

Rev. C. A. STANLEY.

Two day-schools for boys with 3 male teachers and 19 pupils; also 1 girls' day-school with 2 female teachers and 17 pupils. There are a few boarders in each of these schools, but they do not attempt anything more than primary work. Mr. and Mrs. Stanley both teach in them.

Shantung Province.*P'ang-chuang.*

(1). ACADEMY.

This is a small village in the district of En-hsien, about 40 *li* south of Te-chou, on the Grand Canal, which has been a head-quarters of mission work for 25 years, and was opened as a station in 1880.

There was first a free day-school for boys, begun in 1883, which was changed to a boarding-school in 1893, and was gradually developed into an Academy.

Owing to lack of missionary workers, no foreigner teaches in the school, but it is under the superintendence of the senior missionary. There are 3 competent Chinese teachers, of whom the principal, Mr. Chang Feng-hsiang, has been in charge ever since the Academy was begun. Mr. Chang Chia-i is a literary graduate of the first degree, and has charge of the teaching of the classics, etc. Mr. Ho Ch'i-liang teaches mathematics and some other branches. A charge of five strings of cash per annum (ten "small" strings) is made for all the boarding pupils, who comprise all but four or five of the pupils. In one or two cases even this sum is reduced to meet

the abilities of the parents of the poorer scholars. During the past year several Academy pupils of mature years, one a literary graduate, have come from the Lin-ch'ing region, an allied station of the same Board, in which work has not as yet been formally resumed since the Boxer destruction. Almost the entire number of pupils in the Academy come from Christian families.

Students completing their course here are given diplomas, and enter the first year of the College at T'ungchow. Eight graduated in 1902 and seven in June, 1904.

(2). DAY-SCHOOLS.

There are at present nine village day-schools, all charging fees, and of these five are entirely self-supporting, the remainder being assisted by grants to the teacher of about twelve or thirteen strings of cash per annum; the total amounting to about \$30 gold for the year.

These schools are located in five different counties; the number of pupils varying from 7 to 20; the latter the largest and the best school. In one of the smallest, 3 small girls, daughters of one of the native pastors, are allowed to attend with their brother. These schools are feeders for the central Academy, in which it is not intended to take scholars who have not studied at home for at least three or four years; otherwise the local schools would not flourish.

The main difficulty is to find competent and efficient teachers and to exercise proper superintendence over the schools. One of them is taught by a former pupil (who did not graduate) at the North China College of the American Board at T'ungchow. This is the only village school in which primary and other arithmetic is taught, and primary geography.

The location of the P'ang-chuang village schools is as follows :—

En-hsien county: Nan-hsiao-t'un, Hua-chia-ssu-kuan-chuang, Jen-ai-kuan-chuang, Mao-wang-chuang.

P'ing-yuan county: K'an-shui-chuang, Li-lu-chuang.

Hsia-chin city.

Kao-t'ang city.

Te-chou, Hu-chia-t'ang.

(3). STATION CLASSES.

Station classes for men are held in the winter, mostly self-supporting, but the attendance is fitful and depends on the character of the harvest.

The studies are of a simple and elementary character, with a view to direct use in practical work for others.

(4). PRIMARY BOARDING-SCHOOL FOR GIRLS, 培貞閣書房, at P'ang-chuang, is in charge of Miss Grace Wyckoff, who teaches the Bible, Chinese classics, arithmetic, geography, etc. It has 30 boarders and three day scholars; ages ranging between 12 and 20; three native teachers—one male, one female, and a pupil teacher. Since its commencement in 1893 there has been a small increase in the number of scholars. Unbinding of feet is a condition of entrance. Scholars are from Christian homes.

(5). STATION CLASSES.

Since the Boxer troubles, the station class work for women has been almost entirely carried on in the out-stations rather than in P'ang-chuang. A summer training class is still held in the latter place. In 1903 and 1904 17 classes were held in different out-stations. In these 250 women and girls studied faithfully, and 50 or 75 more received much help incidentally. In these classes 80 villages were represented by the pupils attending.

Mrs. L. HODOUS. English Language and Physiology.

The Foochow College is situated within the city of Foochow and near the "Hill of the Nine Genii." The Rev. L. P. Peet has been in charge since 1890. This is a boarding college, charging fees and teaching the Holy Scriptures, Western sciences, Mandarin and English languages and the Chinese classics. Some of the text-books used are as follows: Dr. Mateer's Arithmetic, Algebra and Geometry; Dr. Fryer's Physical Geography, Chemistry and Political Economy; Dr. Martin's Natural Philosophy.

There are 11 native teachers employed. The number of male students is 175, female 1; the average age being 15 years. 125 of the students are doing academic work and 50 collegiate.

The College was organized in 1853, and since the Rev. L. P. Peet took charge in 1890 the students under instruction have been 693.

(2). Various Primary Day-schools, charging fees, situated in the city and suburbs of Foochow and in various surrounding villages, all under the charge of Rev. G. M. Gardner. The subjects taught are the Holy Scriptures, hymns, various Christian books, geography, arithmetic, astronomy, physiology, and the native classics. There are 26 native teachers, and the scholars average about eleven years of age.

(3). Various Primary Day-schools, charging fees, also situated in the suburbs of Foochow, under the charge of Rev. Louis Hodous. The subjects taught are generally those in the preceding primary schools. There are 5 native teachers and 97 male and 4 female scholars, averaging eleven years of age.

(4). Various Primary Day-schools, charging fees, in the Chang-loh and Pagoda Anchorage districts and in charge of Drs. H. T. Whitney and G. H. Hubbard. The subjects taught are generally the same as in the preceding schools. There are 40 native teachers and 772 pupils of an average of twelve years.

(5.) Woman's Bible Training-school in the city of Foochow, in charge of Miss H. C. Woodhull. The subjects taught are the Holy Scriptures, hymns, etc. There are 4 native teachers with 24 women as scholars. The number of scholars since the school began in 1885 has been 250.

(6). The Foochow Girls' Intermediate School was established in 1854, and is situated in the suburbs of Foochow. It is a boarding-school, charging fees, and under the care of Miss E. M. Garretson with five native teachers. The subjects taught are the Bible, arithmetic, geography, history, physiology, astronomy, native classics, composition, and music. There are at present 88 girls enrolled, ranging from 12 to 18 years in age. The number of pupils enrolled since 1896 has been about 225.

(7). FOOCHOW GIRLS' COLLEGE. 榕南上女書院.

In October, 1902, the higher department of this school removed to the new building, and constituted the Foochow Girls' College, in charge of Miss E. J. Newton. During the last year, Miss Worthley

has shared in the teaching; 16 girls are in attendance; the average age is 18 years. Four Chinese teachers are employed; two of them half a day each.

(8). Medical School of the Women's Hospital in the city of Foochow, conducted by Dr. Kate C. Woodhull and Dr. Minnie Stryker, with one native teacher. It is a boarding-school, and was established in 1886. The number of students is at present 4 and since the commencement 14 students have been enrolled.

(9). Po-na-sang Hospital Medical School, in the suburbs of Foochow, in charge of Dr. H. N. Kinnear. It is a boarding-school; the older students receiving pay for services rendered in the hospital. The subjects taught are Western sciences, medicine, and surgery.

(10). The Girls' Day-school in charge of Miss Woodhull, has 24 girls and 8 boys. There are 3 native teachers. The subjects taught are Christian books, arithmetic, Chinese classics and the Romanized colloquial.

(11). The Foochow City Kindergarten, in charge of Miss J. H. Brown, has 60 children and 9 young ladies training for kindergartners.

The Hangchow Presbyterian College is the outgrowth of the Boys' Boarding-school established by the early missionaries of the American Presbyterian Mission at Ningpo in 1844-5. It was moved to Hangchow, the capital of the province, in 1867. The College has been under the continuous supervision of the Rev. J. H. Judson since 1886; the Rev. E. L. Mattox joining the work in 1893.

There are two departments—the Preparatory and Collegiate—each of five years. The curriculum very nearly corresponds to that recommended by the Educational Association of China. There are altogether 5 foreign teachers and 10 Chinese. There have been 110 students in attendance the present year (1904), of whom 50 were in the Academy and 60 in the College. The average age of students is 17 years.

There have been 78 graduates from the school since the beginning, half of whom have taken the equivalent of the present College course. The majority of the alumni are preachers and teachers; some have entered business, a few have gone into the Chinese Postal and Customs service.

The Bible, Chinese, mathematics, science, history, and English are taught throughout the ten years' course. Instruction is given in athletics, elocution, and parliamentary practice. All the students attend chapel exercises twice daily and preaching and

Sunday School on Sunday. Other meetings, as Y. M. C. A., Y. P. S. C. E., Bible study classes, etc., are voluntary.

The College at Hangchow is under the direction of the Central China Presbyterian Mission, and it is the desire of the mission to make the high schools at Ningpo, Shanghai, Soochow, and Nanking feeders of this the College of the Mission; the courses of study in all these schools harmonizing with the College, graduates from the lower schools to be admitted without further examination.

"The teaching of English in all the classes is the most radical change which has been made in the school; but we still hold to the principle on which the College has been run in the past, that a mission school is for the education of the youth of our Christian constituency. If English is a good thing, and is to become an important factor in educational work, and the consensus of opinion is certainly in this direction, then it is good for our Christian boys, though they be poor, and they should have it as well as the sons of the wealthy. Consequently, while tuition has been raised a little, it has not been put so high as to shut out boys of Christian families and make the study of English prohibitory."

"We are making an effort to have each boy who indentures for the full and regular course pay an amount equal to the cost of his living. This point has nearly been reached. Those who take irregular or eclectic courses pay much more. In cases where Christian parents are unable to meet the tuition, work has been given whereby their sons might partly pay their way. During the spring term, ten or twelve boys helped to scrub floors, clean windows, etc., thus saving the wages of a servant.

(2). THE HANGCHOW PRESBYTERIAN GIRLS' SCHOOL.

Miss JUNIATA RICKETTS, *Principal*, teacher of English.

One male and 1 female native teacher, having 26 female boarders, 2 male and 2 female day students, classified as follows: Primary, 2 male and 17 female; Academic, 11 female.

(3). One mixed day-school, having 1 female teacher, 5 boys, and 3 girls enrolled.

Ningpo.

(1). NINGPO PRESBYTERIAL ACADEMY. 崇信書院.

Rev. H. K. WRIGHT, *Principal*.

School established in 1880. The curriculum corresponds to that of Hangchow College Preparatory Department. A new building has recently been erected and the attendance has been up to the capacity of the building. Fifty-eight boarders and 8 day pupils are reported. Teachers, 5 (male). Tuition from \$60 to \$80 with special reduction to children of Christians. There is a strong Y. M. C. A. There were eight additions to the church last year, and several of the students have the ministry in view.

(2). PRESBYTERIAN GIRLS' SCHOOL.

Miss ANNIE R. MORTON, *Principal.*

Miss M. B. DUNCAN, Teacher of Music.

This school was established in 1844. It reports an enrollment of 51, most of whom are children or grand-children of Christians. The studies taught are Chinese classics, Bible and other religious books, geography, arithmetic, and elementary science. English has recently been added. Many of its graduates are engaged in various forms of Christian activity. Christian pupils pay \$12.00 per annum toward their board.

(3). ANGLO-CHINESE GIRLS' SCHOOL.

Miss MANUELLA MORTON, } Teachers.
Miss A. R. MORTON,

This school was established in 1904 with 3 day-pupils; later in the year the first boarder was received. The school is designed to reach high class girls and give to them a good education under Christian influences. It is hoped that from this small beginning the school may grow from year to year and reach a class for which little has been done hitherto in the Ningpo district. The pupils are required to attend church and Sunday School.

(4). DAY-SCHOOLS. There are three day-schools with 5 teachers and 45 pupils. In two of these schools English is taught.

(5). A SHORT TERM BOARDING-SCHOOL for girls and women is held yearly under Miss Morton's supervision. Last year the school was continued for four months; 21 pupils were enrolled. Religious books, a Romanized geography, a Wēn-li Primer and easy mandarin characters were taught. All are taught to read the Ningpo Romanized.

(6). WOMEN'S CLASSES are conducted from time to time by Misses Edna Cunningham and L. M. Rollestone. These classes partake somewhat of the nature of industrial schools. The women provide their own food and receive some financial return for their work. They are taught to read the Ningpo Romanized and receive instruction in religious books.

(7). A MEN'S TRAINING CLASS is held for about one month each year. The attendance last year was 26. Pupils are taught to read the Romanized Bible and are given other religious instruction. Revs. J. E. Shoemaker and A. R. Kepler have charge of this work.

(1). TRUTH HALL. 崇實館.

Mrs. A. M. CUNNINGHAM, *Principal*; others assisting.

This school has 2 Chinese teachers (male), 51 boarding and 14 day pupils. Preparatory 38, Academic 13.

Mrs. Cunningham writes:

We prepare for T'ung-chou College, American Congregational Mission, and for our own College at Wei-hsien. Our course of study is the same as that of T'ung-chou Preparatory and Academy, with the addition of English when greatly desired by pupils who are able to pay extra for it.

Truth Hall was organized as a school long years ago, and has turned out some good men. During the Boxer trouble the school was almost completely disorganized and is only now getting on its feet again. I was put in charge of the school that we could gather together when an attempt was to reorganize, with the understanding that Mr. Cunningham was to take the charge when it reached its former proportions, and so I am holding the work at present.

Rev. J. A. SILSBY, *Principal.*

Mr. REUBEN T. STILES. English.

Mrs. SILSBY. English and Scripture study.

Six Chinese teachers (male), 50 boarders, 10 day pupils. This school was established in 1860 by Rev. J. M. W. Farnham. The

curriculum corresponds with that of Hangchow College. The tuition is \$70.00 per annum, including board, with special reduction to Christians and older pupils who have maintained a good standing in previous years of study.

(2). PRESBYTERIAN SCHOOL FOR GIRLS. 淸心書院女塾.

Miss MARY E. COGDAL,
 „ ELFRIKA A. LINDHOLM, } Superintendents.

Established in 1862. Chinese teachers (male) 1, female 3. pupils 66.

The curriculum corresponds in the main to that of the boys' boarding-school, with special adaptation to a school for girls. The tuition is \$40 a year (including board), and all are required to help in household work. The building is crowded to its utmost capacity ; girls being received from Soochow and from other missions ; preference being given to the children of Christians. See Appendix for Course of Study.

(3). BEREAN ANGLO-CHINESE SCHOOL.

Miss MARY A. POSEY, *Superintendent.* Chinese teachers (male) 3, pupils 60.

This is a day-school for boys, and instruction is given in Chinese books, religious books, arithmetic, geography, and elementary science. The tuition is from \$1 to \$2 per month.

(4). DAY-SCHOOLS. There are five day-schools : for boys 1, for girls 1, and for both sexes 3. In these schools there are enrolled 187 boys, 47 girls, and they are taught by 1 male and 4 female teachers. In all a small tuition is charged, but not always demanded. Those in charge are

Mrs. G. F. FITCH,
 Mrs. G. MCINTOSH,
 Mrs. J. A. SILSBY,
 Miss MARY E. COGDAL,
 Miss E. A. LINDHOLM.

Rev. FRANK P. GILMAN, A.M., *Principal.*

Two native male teachers and 23 pupils.

Mr. Gilman writes:—

It was started provisionally this year, and has about a third of its scholars as partial course men. Several of them are graduates who have come for mathematics in preparation for official examinations. It is not a boarding-school, though we expect in a year or so to make it such a school.

The scholars and Chinese teachers now board themselves in a neighboring Chinese temple, which has been loaned to us by the local gentry free of rent, and where I preach to the school on Sunday mornings.

We are now building a school house.

Rev. HUNTER CORBETT, D.D.

Rev. W. O. ELTERICH.

This school has three departments—normal, academic, and primary. There were 40 enrolled, of whom 30 were boarders. There were 12 in the normal department in 1903.

(2). BOARDING-SCHOOL FOR BOYS. This school and the following are in out-stations and under the direction of Dr. Corbett and Mr. Elterich. The regular teachers are Chinese. Chinese teachers 2 (male), pupils 30.

(3). BOARDING-SCHOOL FOR GIRLS. See above. Chinese teachers 1 male, 1 female. Pupils 30.

(4). TEMPLE HILL ANGLO-CHINESE COLLEGE. 實益學館.

Rev. GEO. C. CORNWELL, *Principal.*

Mrs. GEO. C. CORNWELL.

Mr. W. C. BOOTH.

Miss DOWNING.

Chinese teachers 6, pupils 80. This school is not directly under mission control. It is self-supporting.

The strong religious character of the school and the establishment of similar schools in the city have somewhat retarded its growth. The tuition fees covered the running expenses and the salaries of two foreign teachers.

(5). DAY-SCHOOLS. Dr. CORBETT and Mr. ELTERICH in charge.

There are 20 day-schools conducted by the station for the benefit of the children of Christians. Seventeen of these are in the country districts near Chefoo.

Mrs. JNO. L. NEVIUS has charge of two schools for boys, attendance about 50, and one for girls with an attendance of 20. Miss BAINBRIDGE teaches English in the girls' school.

Rev. GEO. CORNWELL had charge of a boys' day-school, with an average attendance of about 20.

(6). THEOLOGICAL CLASS. From February to July, 1903, this class was in session at Chefoo. Rev. W. M. HAYES, D.D., took charge, and was assisted by Dr. HUNTER CORBETT and Rev. W. O. ELTERICH. The students did faithful class work and also rendered effective work in the evangelistic and pastoral work of the station. There were 11 students.

Mrs. JAMES B. NEAL, *Superintendent.* English, arithmetic, O. T. History.

Four Chinese male teachers, 28 boarding pupils (male), 8 day pupils. Pupils furnish about three-eighths of the cost of running the school. In 1903 the school fees amounted to \$292 Mexican. The Y. M. C. A. does a good work in this school; most of the boys being members.

(2). DAY-SCHOOLS. Four schools for boys, two for girls, and one mixed school.

Teachers, 5 male and 2 female, with 36 boys and 17 girls.

Chi-ning-chow.

(1). CHI-NING BOYS' BOARDING-SCHOOL.

Rev. H. G. ROMIG, *Superintendent.* Mathematics and English.

Mrs. H. G. ROMIG. English.

This has been the chief school here since the establishment of this city as a station in 1892. It now has both boarders and day scholars, all from Christian homes or accounted for by some older Christian. There are 30 scholars, of whom 26 are regular boarders; all paying their own board. Some are spending a little time each day earning their board, while those with the money pay. The average age is about 15. They are taught by two native teachers, of whom one is a graduate of the Teng-chow-fu College, Shantung. The chief branches of study are Chinese classics, Bible and religious books, arithmetic, geography, history, and English.

The Chi-ning school has had different names and been under different leadership; it having been formerly in the hands of Rev. Wm. Lane and Rev. J. H. Laughlin. Before it came into Mr. Romig's hands it was running on a semi-boarding plan; the scholars,

many of them, remaining on the Mission compound, but cooking their own food or buying it on the street. After the Boxer trouble, it was in the hands of Mr. Laughlin, who had the whole work of the station—school and evangelistic—till his departure for America last March. The school work of the station has just been undertaken by us, who have only enough of the language to make a beginning. Our schedule is therefore very embryonic, but we are now trying to get the scholars into regular classes. English has taken the most prominent place during the past two years, but its intrinsic value has not revealed itself except in leading the scholars to get positions in the post-office after getting only enough of English to make them able to do the work. A few have gotten a good knowledge of English, but most of them only a smattering. Those who study English are now not only furnishing their board, but also paying three thousand cash extra per year for their instruction. A plan is now in our minds to require a certain grade of scholarship before the study of English is begun. We desire to make the school a feeder to the Wei-hsien Union College, hoping that it may become a first class academy.

(2). DAY-SCHOOLS were in prospect when this report was made, and are probably now in progress.

I-chow-fu.

(3). DAY-SCHOOLS. There are three in the city of I-chow-fu, one being for boys and two for girls; two of these schools are graded, and prepare for the regular high school. The total number of pupils is 49, of whom 28 are girls. The average age is 12. A native teacher is in charge of each school. The subjects taught include the Chinese classics, Arithmetic, Geography, Physiology, and Christian books. (These schools are under the care respectively of Rev. Wallace S. Faris, Mrs. Faris, and Dr. Elva E. Fleming.

Ten country day-schools, under the direction of Rev. Wallace S. Faris. They employ 10 native teachers and give instruction to 58 boys and 17 girls, whose ages vary from 6 to 16 years.

(4). A MEDICAL CLASS of 11 students, under the direction of C. F. JOHNSON, M.D., was carried on for eight months in 1903, instruction being given in both English and Chinese.

Tengchow.

(1). GIRLS' HIGH SCHOOL.

Mrs. CALVIN WIGHT, Principal.

There are 31 pupils, 27 of whom are from Christian homes; their ages range from 12 to 23. Progress in self-support has been made; the average pupil paying about 2,000 cash a year.

(2). DAY-SCHOOLS. Rev. J. P. IRWIN in charge. Five schools in the city are reported and 23 country schools. There was reported in 1903 an attendance of 345 boys and 60 girls. There is a steady aim to increase the efficiency of these schools, through carefully graded lessons and by securing teachers with normal training.

Mrs. R. M. MATEER. Bible and Physiology.

Mrs. CROSSETTE. Bible.

Chinese male teachers 4; pupils (male),—boarders 47, day pupil 1. School begun in 1884.

The school is of Academic grade. In 1903 8 boys finished the course, 6 of whom went to Shantung College, while 2 became teachers in public schools. All are Christians, and the Y. M. C. A. is doing much good in the school. The pupils during the year (1903) paid 184,000 large cash toward school expenses.

(2). GIRLS' HIGH SCHOOL.

Mrs. F. H. CHALFANT, Superintendent.

Mrs. M. M. CROSSETTE.

After a vacation of two and a half years, on account of the Boxer troubles, the school was reopened in September, 1903. Number of girls 38. These girls promised 195,000 cash for next year's school expenses. Moral suasion only is used regarding unbinding feet, but all the new girls came with feet unbound.

(3). COUNTRY DAY-SCHOOLS. Rev. R. M. Mateer in charge of boys' schools; Mrs. Mateer, Mrs. Chalfant, Mr. J. A. Fitch in charge of day-schools. Thirty-six day-schools for boys are reported with some 295 pupils, and 4 schools for girls with about 50 pupils.

In these 40 day-schools there are reported 291 children of Christians and 104 from non-Christian homes. The opportunity to secure Western learning overcomes, to a large extent, the prejudice against Christianity and the disapproval of Saturday and Sunday holidays.

(4). BOARDING-SCHOOLS FOR GIRLS. Mrs. R. M. Mateer, Mrs. Chalfant, and Mr. Fitch in charge. Twelve of these schools are reported with an attendance of 250.

(5). THEOLOGICAL CLASS. Dr. W. M. Hayes spent six months with this class at Wei-hsien, assisted by a member of the station.

Two for girls, with 2 female teachers and 36 pupils.

Mr. Huntington writes :—

The day-schools are located as follows: Ichang, 1 for girls; Shasi, 2 for boys, Sha-ying 沙洋, 1 for boys. The "Anglo-Chinese Graded School" includes a primary school, which accounts for about half the boys.

The course of study in primary schools includes a primer, Aesop's Fables, Lun Yu, arithmetic, geography, physiology, catechism, Gospels. In the "American Church School" we give three years in English, arithmetic, algebra, geometry, the Four Books, History of China, geography, physiology, botany, Life of Christ, Acts, Genesis. There are ten boarders, and the rest are day scholars. The fees per annum are—boarders, from \$24 to \$36; day scholars, primary scholars (boys), \$2. The girls pay nothing. Their course of instruction is not up to the standard of the boys' schools.

A NORMAL CLASS was started in 1901 in Hankow by the Rev. L. H. Roots and studied for six months; another class in 1902 studied for a year. The

present class was started in 1903 with a two years' course. Ichang is not a very good place for such an institution for a mission with stations from Wuhu to Ichang (our work in the Kiangsu province I do not include, as for a variety of reasons it furnishes no students), so I expect the class will be removed to Wuchang or Hankow after China New Year. The course of study is as follows: First year—Arithmetic and algebra, 6 hours a week; geography, 4 hours; pedagogy, 1 hour; Life of Christ, 1 hour. Second year—Algebra and geometry, 6 hours; Western History (White's Eighteen Christian Centuries) and History of Education, 3 hours; physiology, half year; physics, half year, 2 hours; Acts and Genesis, 1 hour.

The class consists of 11 men, two of whom are hsiu-ts'ai and all of whom are pretty good Chinese scholars. They receive scholarships of \$72 during the first and \$84 during the second year. I think this will be reduced, and I hope the class will be thrown open next year to outsiders who will pay.

St. John's College is situated about five miles from the foreign Settlements. Has three large buildings—the High School Building, or Preparatory Department; the Science Hall, or College Lecture Hall; and the "Yen Hall" (the Dormitory Building of the College students). The latter also contains a Library and a General Assembly Hall. In addition there is a large College Chapel, a Gymnasium and a Residence for native teachers.

There are two distinct Departments—the Western and the Chinese. In each of these Departments there is a Collegiate Course and a Preparatory Course. In the Western Department the Collegiate Course comprises three schools :—

- I. The School of Arts and Science.
- II. The School of Theology.
- III. The School of Medicine.

The Preparatory Course extends over four years.

The students live and board on the premises. With the exception of a few scholars on free scholarships supported by benefactors in the U. S., all pay tuition fees, which sum very materially helps in paying current expenses.

In the curricula will be found the names of the English textbooks used. In addition to the professors on the foreign staff, there are ten native instructors in English, all graduates of the institution, and ten teachers in the Chinese Department.

At present in all Departments there is accommodation for 300 students. There have been over 1,000 students enrolled since the commencement of the College in 1879. The average age of the students in the Preparatory Department is 16 and in the Collegiate Department 19. There are 275 boarders : 225 in Academic work, 32 in the Arts and Science Course, 8 Theological, and 10 Medical.

HISTORICAL SKETCH.

St. John's College was founded in the year 1879 by the Rt. Rev. S. I. J. Schereschewsky, D.D., at that time Missionary Bishop of Shanghai.

Previous to that date there had been in connection with the missionary work of the Protestant Episcopal Church in Shanghai two boarding-schools, one called Baird Hall and the other Duane Hall. These two institutions were amalgamated in the new St. John's.

Before the establishment of the college, Bishop Schereschewsky had appealed for funds for this purpose in the United States, and had met with so large a measure of success that the Board of Missions felt justified in pledging a yearly sum for the maintenance of the college.

After raising the money, the present site, known as Jessfield, five miles from Shanghai, was secured, and the first college building was erected.

The corner stone was laid on Easter Monday of the year 1879, and in the autumn the building was completed and ready for occupation.

It opened with about 70 students, who were instructed entirely in the Chinese language.

In 1880, an English Department, under the management of Miss E. A. Spencer, was added.

In 1892, the original college building was replaced by the present large, substantial and handsome quadrangle. This was erected at a cost of \$20,000 gold, all of that sum, with the exception of \$1,000, being raised in America.

The corner stone of this building was laid by the Rt. Rev. F. R. Graves, D.D., on January 26th, 1894, the stone used being the one that served the same purpose in the old building, thus forming a connecting link between the past and the present.

In 1896, funds were secured for another much needed building, the Science Hall, or collegiate building proper.

As an evidence of the increased interest of the Chinese themselves in enlightened education, it is interesting to note that 4,000 Taels of the sum needed for this building was raised in China. The balance, \$13,000 gold, was contributed in America. The corner stone of this building was laid on November 19th, 1898, and the building was formally opened on July 20th, 1899.

In 1902, the pressure of an increasing demand for education on the part of the Chinese led to steps being taken for the erection of a third building.

Subscription lists were circulated by members of the Alumni Association, among the officials and gentry of China, with the result that a sum equivalent to \$7,000 U. S. gold was secured. In the United States \$22,000 U. S. gold were contributed.

The third building has just been completed. The corner stone was laid on the 24th of October, 1903. It provides dormitory accommodation for 75 students.

In addition there are living rooms for masters, a general assembly hall, with a seating capacity of 600 persons and a library.

The building called "Yen Hall" is in memory of the late Rev. Y. K. Yen, M.A., who did so much for the college as head master, in the days of its inception.

The assembly hall is called the "Alumni Assembly Hall" in recognition of the splendid work of the members of the Alumni Association in obtaining funds for the building. The library is called "Low Library" in honor of ex-Mayor Seth Low and his brother, who have been generous contributors to the college.

Thus slowly from small beginnings has St. John's College grown to its present proportions. Judging by the past we may look forward to further progress in the future.

As the Collegiate School has grown into the College, so in time the College will develop into the University.

The aim will ever be what it has been from the beginning, to send the bright beams of light and truth throughout the length and breadth of the Empire.

Canton.

(1). THE CANTON THEOLOGICAL SCHOOL

G. W. GREENE; first half of the year, Old Testament; second half, Church History.

UE SUI-WAN; first half year, Outlines of Christian Doctrine and Homiletics; second half, Old Testament.

E. Z. SIMMONS. New Testament, going over Acts and the Epistles of Paul.

The school has recently been more thoroughly organized. For both spring and fall terms 32 students have been enrolled. Written examinations are held from time to time. Brief sermons are required about every two weeks. These are criticised, and some of them are read before the school and the good and bad points shown. Among the students are some promising men. Four have been taken on as helpers for another year. Some of the students do considerable preaching while in school.

(2). THE BOARDING-SCHOOL.

Miss BOSTICK, *Superintendent*.—The spring term closed when Mrs. Graves went to the United States. Since that time the school has been under the direction of Miss Bostick. The building has been crowded, and some women and girls have been turned away for want of room. This has been one of the best sessions. Sixteen girls and five women have been baptized. Enrollment 57 girls, 17 women.

(3). GIRLS' DAY-SCHOOLS.—There are five in Canton—one in Shiu-hing, one in Sai-nam, one in Tsing-une, and one in San-ui. The enrollment in these has reached about 450 pupils. Those in Canton have usually been visited once a week by the lady in charge, and besides the review of the week's lessons much Christian instruction has been imparted to the girls and women of the neighborhood.

(4). THE CANTON ACADEMY.—Mr. Ue Yik-shan is the teacher in the Chinese department and Mr. Lee in the English department. The Bible teaching and Christian influence has been very good this year and has borne fruit in the conversion and baptism of 24 of the pupils. The enrollment has been 65 scholars.

(1). GIRLS' BOARDING-SCHOOL. 女館.

Rev. J. LEONHARDT.

Mrs. J. LEONHARDT. Industrial Department.

Rev. GOHL. Geography and Singing.

"This school was founded by Mr. Bender in 1867. Since that time about 800 children (most of them girls) have received their education here. They come from five or six districts. In addition to the regular class room work they also have their regular duties in caring for the house. In this school are boys also taking the first three years' course, but after that time they go to Nyen-hang-li to our school there." In this school are 2 male and 2 female teachers; boarders, 13 male and 58 female; day students, 11 male and 6 female.

(2). EIGHT DAY-SCHOOLS. 3 for boys and 5 mixed, having 8 male teachers, 153 boys and 6 girls enrolled. "Two of the above schools are taught by teachers who have had their training in our schools. They are similar to the Primary schools in Germany and Switzerland.

Six of the above schools are taught by Chinese teachers who have become Christians, but have not been trained by us for teaching. In some of these schools our preachers and missionaries are helping from time to time as they can visit them. They are of not a little value in our mission and educational work for China."

(1). Boys' BOARDING-SCHOOL.

Rev. H. ZIEGLER. Romanized Reading, Orthography, and Compositions.

Mrs. H. ZIEGLER. Reading, Orthography, and Singing.

3 native male teachers and 22 boarders. 14 are doing Primary and 8 Training school work.

This school was organized in 1890.

The following are some of the subjects taught:—Bible History, Bible Reading, Catechism, Geography, Mathematics, History, Singing, and the Chinese Classics.

(2). DAY-SCHOOLS.

Thirteen for boys, having 13 male teachers and 160 pupils.

"They are scattered in three districts (Lyung-ts-chhou, Fo-phin, and Ho-nyen). The teachers have certainly to keep the Sabbath, and during the week to tell daily a Bible story. The boys have to learn the "Sam-s-kin" of Hankow. In the first days of the Chinese year the teachers have to come to the station for three days to get instruction for their school work. Every one has twice to tell a story and to ask the scholars about it and to find out the meaning of the story for scholar's hearts. That is a very good institution for the teachers, and they are thankful for the help we give them in that way. The Mission allows now \$24.00 a year to each teacher. From time to time these schools are examined by the superintending missionary or by the inspectors of schools of our Mission. We have two inspectors of schools—Rev. T. Lörcher and Rev. D. Schaible."

(1). THEOLOGICAL SEMINARY.

Rev. G. ZIEGLER.

The present number of 50 young men, averaging 20 years of age, receive a careful training in theology and Chinese literature. 2 Chinese teachers assist in the instruction. The seminary was founded in 1870, and since that time 270 pupils have been admitted.

(2). BOYS' BOARDING-SCHOOL.

Rev. A. NAGEL, *Principal*.

It was established in 1865, and has enrolled 900 scholars in all. At present there are 3 Chinese assistants and 90 pupils from 10 to 15 years of age. Fees are charged for board and tuition. The Hongkong government school books, Bible History, etc., are among the text-books made use of.

(3). A FREE DAY-SCHOOL FOR GIRLS was commenced in 1877, and is superintended by Mrs. Nagel. It provides a course similar in character to that of the boys' school. Since the beginning 90 pupils have been enrolled, and at present there are 15, averaging from 10 to 14 years of age. One native teacher assists Mrs. Nagel in instructing the scholars.

(2). Boys' Boarding-school, 儲子書房, directed by Mr. Schaible. This school was commenced in 1868, and has since that time admitted 753 scholars. Three native teachers assist in instructing the present number of 75 boys and 4 girls. The course of study consists of Scripture history, Chinese classics and elementary science. The pupils average 8 to 16 years of age.

(3). The Christian Congregation School is situated at Ts-cham-hang. It is a day-school charging fees; 226 students have been under instruction since its commencement in 1878. The course of study is the same as in the boys' boarding-school. There is one native teacher, and the present number of pupils is 19 boys and 4 girls—averaging 12 years of age.

(4). Seven Free Day-schools, stationed in the neighbourhood, teach their scholars the Bible and Chinese classics. There is one native teacher for each school, and the present number of pupils is 88, averaging 12 years of age. The schools were established in the years 1884, 1891, 1892, 1904. Mr. Schaible superintends these schools, as he does all those belonging to this station.

The China Inland Mission School in Chefoo comprises three Departments—one for boys, one for girls (both begun in 1880) and a Preparatory Department opened in 1895.

The School was established in order to provide education for the children of members of the China Inland Mission. The staff is composed of members of the Mission. So long as the accommodation of the School allows, pupils who are not children of members of the Mission are also admitted.

AIM.—The aim of the School is to provide a sound and thorough education for the pupils. Besides the ordinary branches of an English education, Latin, German, Greek, Higher mathematics, and French (in the Girls School) are also taught, so as to prepare pupils with a view to preliminary professional examinations and Matriculation in English and American universities. Chinese, Music, and Painting, may be taken as special subjects. A small workshop, containing a lathe and other tools, has been established, where boys may obtain instruction in wood and metal turning. As far as possible the individual capacity and requirements of the pupils are consulted, while every effort is made to send them out with disciplined minds as well as a good store of knowledge. Being further, a school taught by missionaries and intended primarily for the children of missionaries, the moral and spiritual interests of the children are considered of the highest importance. Parents may be assured that these interests will be made matters of constant care and thought, and that children will not be received or retained whose influence would interfere seriously with this aim.

BRULAH SCHOOL.

It will be necessary to explain, we think, about our school. We began an Anglo-Chinese school two years ago, preparatory in nature to such an institution say, as the Anglo-Chinese College. It is divided into three general Departments—Senior, Intermediate, and Junior. I am called the Principal, and our family teach the few older students as follows:—

Mr. WOODBERRY. Reading.

Mrs. WOODBERRY. Grammar and Geography.

Miss ETHEL WOODBERRY. Higher Arithmetic, Algebra, and Ancient History.

This is our Senior Department.

Our Intermediate Department is taught by Miss E. R. Dieterle, Miss Signor, and Dr. B. Y. Wong. The studies range as above, with Dictation, Composition, and Translation.

Our Junior Department is taught by Dr. B. Y. Wong and Miss E. R. Dieterle. Reading, Geography, Spelling, etc.

Our Night School is taught by Mr. Woodberry, Miss Signor, Dr. B. Y. Wong, and King Fu-k'ung.

The day-school averages about 45 in attendance, and the night school about 15, although the numbers enrolled are very much larger; they do not remain over a few months in most cases. About 150 are enrolled in a year.

During the interval the regular work of the Preparatory department
was continued in the Portuguese colony of Macao, a healthful
seaside resort, eighty miles south of Canton.The school has recently been moved to the new location, and is
being conducted in temporary quarters while the permanent buildings
are being erected.**HISTORY.**

The plan to establish such an institution sprang from the American Presbyterian Mission, Canton, China, in 1884. Its importance was pressed upon the friends of Christian Missions and philanthropy by Rev. B. C. Henry, D.D. In 1885 Rev. A. P. Happer, D.D., suggested a plan to the Board of Foreign Missions for carrying out this project. It was proposed to build such a College as the Syrian Protestant College, Beirut, Syria, and Robert College, Constantinople. Under the fostering care of Dr. Happer, Dr. Henry, and, later, Rev. H. V. Noyes, D.D., as Presidents, the work gradually grew, until it was thought best by both the Presbyterian Mission Board and the Trustees of the College that it should be severed from denominational control. Accordingly, in 1893, the College was chartered under the University of the State of New York, U. S. A., having a Board of Trustees of business and professional men, whose headquarters are in New York City. In the year 1898, Rev. O. F. Wisner, M.A., was elected President; and he with his family came to Canton

early in 1899. Mr. M. R. Alexander accompanied the President, and they, with a Chinese literary graduate, opened a Preparatory school in a large room connected with the Sz Pai Lau Presbyterian Church, Canton. As soon as a better place could be found, this school of 17 students was removed to a large native dwelling house on Fa Ti, on the south of the river, and opposite the city of Canton. As the number of students increased and no suitable building could be found in Canton, the entire school was moved temporarily to Macao in 1900, where it remained during the slow process of purchasing land in Canton.

(1). TRINITY COLLEGE, founded in 1876, is a College for the preparation of Mission Agents, under the management of Rev. W. S. Moule, B.A. The college curriculum embraces the Chinese classics, Scripture and theology, history, geography, mathematics, and natural science. 4 native teachers assist in instructing the students.

The College is divided into three sections: (1) Preparatory School. (2) Normal School. (3) Theological Class. There is also a practising school for the members of the Normal School.

We have here no large educational policy. It may interest you to know that there are at this moment 56 past students of our College working in the Mid-China Diocese, employed either by C. M. S., the Chinese Missionary Society, or the native Church. Of course all our boys are baptized Christians. We have about 45 in the Preparatory School and 20 in the Normal School, and this year only 3 in one Theological Class; next year we hope for more. But the attractions away from missionary work are many and increasing.

More than 300 boys have entered this College since it was founded in 1876 with 8 students.

(2). Eleven Free Elementary Day-schools conducted by the district missionaries. Instruction is given in the Chinese classics, elementary arithmetic, Scripture, and the elements of Christianity. There are 11 native teachers, and the total number of scholars reaches 150. They are from 10 to 13 years of age.

Taichow.

Rev. EDWARD THOMPSON.

9 boys' day-schools, with 10 male teachers and 165 pupils.

1 girls' day-school with 1 female teacher and 12 pupils.

We have no regular boarding-school, but some 10 boys board at the city (Fu) school, and a few at some of the country schools. Our method is to allow the most suitable boy to enter the city school from each of the country schools, and the best of these at the conclusion of the year to enter Trinity College, Ningpo, where they receive preparation for Christian work.

The result of last year showed 29 first class, 39 second, and 40 third. I need hardly speak of the importance of scholastic work in connection with the advance of evangelization, and it is our effort to plant a school in each station occupied by our Society. The course comprises but little of the so called advanced teaching, and our object is to meet the greatest and primary need of those who come to us. The majority by far of our scholars come from the "land," and they go either back to the soil or to business. Our aim there-

fore is to give in conjunction a sound vernacular instruction, coupled with sound Biblical Christianity.

And the fact that almost without exception the schools root themselves, the *older the deeper*, is, I think, the best testimony.

The C. M. S. Theological College is a free boarding establishment, situated on the island of Nantai, and is under the superintendency of the Rev. J. Martin. The object of the college is to train native preachers. The course consists of 5 years, one of which is spent in active work under supervision, either of an experienced native or a foreign missionary. The students, numbering 30, and having an average age of 25 years, receive thorough instruction in the knowledge of the Scriptures. Scripture history, dogmatic theology, exegesis, homiletics, natural theology, the Chinese classics, Church History and the prayer-book are the subjects taught by the superintendent, assisted by two native teachers. The text-books used are Faber's Commentaries, Martin's Christian Evidences, Williamson's Natural Theology, Burdon's Scripture History, Moule's articles of the Church of England, and Hoare's Commentaries on the Prayer-book.

Since 1881, when the college was opened, about 248 students have been enrolled and 8 ordained.

DUBLIN UNIVERSITY FUH-KIEN MISSION IN CONNECTION
WITH C. M. S.

The head-quarters of the Mission is Fuh-ning city, where we have 4 boarding schools, 1 medical Training Institution, and 1 boys' day-school.

These are as follows:—

(1). Boys' BOARDING-SCHOOL. Foreign Principal, Rev. John Hind. 2 native teachers. Pupils number 27. They are received here generally from the country day-schools, and in many instances pass on from here to the High School in Foochow; and thence, after a period of probationary work as school masters, they pass into the Foochow C. M. S. Theological College to be trained as catechists.

(2). WOMEN'S SCHOOL in Miss Clarke's charge. Instruction is given which fits the women to become Bible-women.

(3). WOMEN'S STATION CLASS. A quarterly course, in which the heathen and less well instructed of the Christian women who wish to come, are taught the essential doctrines of the Christian religion. Also under Miss Clarke's care.

The Dublin University Mission is entirely responsible for the day-schools throughout the Fuh-ning prefecture, which number 23. Boys' 21 and girls' 2. These are also under the supervision of Rev. John Hind. An annual examination is held in the 12th month, when those who have attended sufficiently well during the year and whose answers are considered good, are suitably rewarded. Those who get 80 per cent. in each subject are considered to have passed and get larger rewards. The teacher is rewarded according to the number of passes in his school.

(4). The hospital where the training of medical students is conducted, is in charge of Dr. Marcus Mackenzie. He has two native assistants, both trained in this hospital; one in the time of Dr. Taylor and one while Drs. Synge and Mackenzie were in joint charge. There are at present 3 students, all in their last year of training.

FUH-NING GIRLS' BOARDING-SCHOOL. 培德書院.

Miss EDITH M. K. THOMAS, *Principal.*

1 male and 5 female Chinese teachers and 56 female boarders, all doing Primary work.

The School exists for the education of children of Christians and catechumens. It was opened by Mrs. Martin in 1885, and has since enrolled a total of 170 pupils.

Each pupil pays a fee of \$1 per term and her travelling expenses. She must have unbound feet.

Pupils may enter at eight years, and the school rules require that they shall not marry until 19 years of age, and they may only be betrothed to Christians. Girls who take the full course and are capable, are expected to give two years' help as pupil teachers before leaving school.

The highest number of pupils accommodated at one time is 60. The present teaching staff includes the missionary in charge, Miss Thomas, a Chinese master and mistress, and four pupil teachers (half time). Two classes are also taken by outside helpers.

The School expenses, including salaries of native agents, are provided by voluntary contributions and a grant from the Dublin University Fukien Mission. Plans for the enlargement of the present building, which is much too small, are now under consideration.

1 male native teacher, 21 boarding, and 53 day students, all male.

Extract from Report, 1903-04.—" Early in 1903 a Provisional Prospectus was issued of a new Anglo Chinese College to be opened by the Church Missionary Society, which would offer to the sons of Chinese gentlemen an English education given altogether by English masters upon the lines of high-class English schools.

" Accordingly, on February 23rd, we began work with 6 boarders and 1 day pupil. In less than a fortnight our numbers had doubled, and at the end of the first half year we had 26 under instruction. The names of 16 more were added during the last half, and we close with a roll-call of 32. We have not sought numbers. The high fees have been prohibitive in many instances; but we have felt that an educational institution of this character should be self-supporting, while its efficiency, both in staff and work, should be beyond question.

" The subjects that have been taught in the classes during the year now closing comprise the following: English language and grammar; composition and letter-writing; reading and dictation; writing and drawing, with lessons on common objects; geography and the history of the Middle Kingdom; arithmetic and algebra; Chinese translation and the Holy Scriptures."

Commenced in 1860. Number of stations reporting schools, 5 ; number of schools, 36 ; native teachers, 36 ; male scholars, 395.

With the exception of the Hall Memorial, the schools on this schedule are simple Chinese day-schools pertaining to the Mission. In all of them the teaching of the Christian truth is combined with the elements of Chinese education. The scholars are mostly very young, and their Chinese studies, commencing with the San Tzü-ching, seldom go beyond the mastery of the Four Books. They are what may be called infant schools, though some of the scholars reach the age of 15 or 16, and in cases of rare promise may be drafted into the Hall Memorial for further training. They are Christian free schools.

The Hall Memorial Institute is exclusively for the training of native preachers and evangelists. The building is a large structure situated in the French Concession of Tientsin with chapel, lecture hall, tutors' residences (foreign and native), and dormitories complete. It furnishes the Mission with an efficient staff of about 30 native agents. It is a most valuable adjunct to our work. (Rev. G. T. Candlin.)

Rev. JOHN ROBINSON, *Principal.*

This is a free boarding-school. It was founded in 1874, and at present has 15 students from 20 to 30 years of age. Two native teachers assist Mr. Robinson in teaching the students in theology, moral science, church history, science, and the other studies included in the college curriculum.

The following are some of the texts used :—Martin's Evidences, Box's Bible Story, Pott's Life of Christ, Butler's Analogy, Sheffield's Theology, and books of the New Testament.

(2). Two Free Day-schools for boys, with a native teacher in charge of each school. Scripture and Chinese elementary subjects, such as the San-tzü-ching, etc., form the subjects taught, and the scholars number in all 25, from 8 to 16 years of age.

Mr. Beattie gives the following facts concerning the educational work in his Mission:—

PRIMARY SCHOOLS: for boys, 21; for girls, 6; mixed, 1.

Pupils in these: boys, 312; girls, 69; mixed, 46.

HIGH SCHOOLS: for boys, 1; for girls, 4.

Pupils in these: boys, 61; girls, 318.

THEOLOGICAL COLLEGE, 1; students, 36.

Foreign teachers are in charge of all the high schools.

The 4 high schools for girls, with 318 pupils, are not really high schools, but called so in respect of the fact that they are directly under the superintendence of foreign lady teachers, and the senior pupils pursue somewhat more advanced studies and some are trained as teachers. The bulk of the school course is, however, purely elementary. Of such a nature is the girls' school at Chang-pu, conducted by the lady workers—Misses Maclagan, Lecky, and Noltenius—in connection with their other work.

Rev. H. THOMPSON. Exegesis and Theology.

The Theological College is a free boarding establishment situated at Ku-lang-su. The students (21 this year) receive lectures in theology, Scripture, Church history, homiletics, mathematics, mandarin dialect, vocal music, and the Chinese classics. Although the examinations in the College are based upon these lectures the young men are encouraged to make use of all the text-books they can. Established in 1868, this institution has since that time enrolled over 200 students. The College is in charge, at present, of Mr. Thompson, assisted by 3 native teachers.

This school is also situated at Ku-lang-su, and receives both boarders and day-scholars, the majority of whom pay no fees. Reading and writing, Scripture, elementary science, house-keeping, cooking, needle-work, and vocal music are among the subjects taught. At present there are 2 native teachers, and 70 scholars of an average age of 15.

(3). 1 Day-school for boys, having 1 male teacher and 21 pupils.

The educational work of our Mission is carried on in conjunction with that of the Dutch Reformed Church of North America; the Theological College (of which our Mission has the charge) educating the students of both Missions; and the Middle School (of which the American Mission has charge) educating boys belonging to both Missions. Our educational work thus consists of—

1. Primary Day-schools in connection with Christian congregations.
2. Middle School managed by American Mission.
3. The Theological College.

Of the students who have passed through the Theological College 20 have, after serving as preachers, been ordained to the ministry over congregations prepared to support their own pastor. (Rev. W. McGregor.)

Character of the School.—Elementary, but with a class for more advanced studies. Probably in the near future it will be organized as a high school. Over 60 pupils board and live in the school.

History of the School.—Organized, I believe, about 1890. Since I took it over in the winter of 1899 the numbers have been very satisfactory and show no tendency to decrease. Each boy boarding pays \$12 for year of two terms. Day scholars pay \$2 for tuition. Tuition of boarders is practically free.

(2). JOINT GIRLS' AND WOMEN'S BOARDING AND DAY-SCHOOL.

This school is for the wives and children of Christians. It is an elementary school, where instruction is given in Scripture, reading, and writing (Romanized and Chinese character), arithmetic, singing, and needle work. It has been open for thirteen years, during which time there have been 340 pupils, many of whom have only read a short time, but long enough to know Romanized. Two years ago a kindergarten was begun for the children of Christians living near the school. There are twenty names on the roll. The kindergarten is in charge of a Chinese girl, assisted by the elder girls.

(3). COUNTRY SCHOOLS (Girls).

There are three for small children at country stations taught by former pupils of the girls' school. These schools only meet for an hour or two at midday.

(4). COUNTRY SCHOOLS (Boys).

The number of these schools varies from year to year according to the demand or the want of demand for a teacher. Last year four schools were opened with an average attendance each of 70 pupils. This year only two have been opened : one with an attendance of 20, the other with only 12.

Parents of pupils pay half the teacher's salary.

4 native male teachers and 40 boarders, 30 of them in Academic and 10 in the Collegiate work.

This institution originated in a small boarding-school established in the year 1880 by Rev. Frederick Galpin, of the U. M. F. C. Mission. There were then only 6 students, the sons of Christian parents. For fifteen years the school was continued under Mr. Galpin's supervision, and from it came forth several young men who entered and still continue in the service of the church as pastors and teachers.

Upon Mr. Galpin's withdrawal from work in China owing to ill-health, the boarding-school was continued under the charge first of the Rev. Richards Wolfenden and afterwards of the Rev. J. W. Heywood. The number of students increased and English was among the subjects added to the curriculum.

Immediately after the restoration of peace at the end of the Boxer rebellion in 1900, a large increase in the number of students took place, and it was necessary to move to larger and more commodious premises. A scheme was promoted for the erection of new college buildings and application made to

the Mission authorities for the appointment of a special missionary to take charge as principal of same. In the meantime the work was carried on by the Rev. G. W. Sheppard, assisted by 4 native masters.

In 1903 Mr H. S. Redfern, B.Sc., was appointed principal of the college and Mr. Railton Yuen who, supported by the Railton Road Methodist Free Church, London, has studied for six years at St. John's College, Shanghai, graduating with distinction in 1904, is his assistant.

The new buildings are about to be erected on the Ningpo foreign Settlement at a cost of 30,000 dollars.

EXTRACTS FROM Report, 1903.

It was the realization of the need for Christian effort to rescue blind girls in China which led to the foundation of the Hildesheim Mission Society. Miss Cooper, a former lady-missionary of China, had awakened, by her accounts of the sufferings endured by poor blind women in China, a strong interest in the home country.

The undertaking was crowned with the divine blessing, and in the year 1897 the Hildesheim Mission was in a position to initiate its activities with a home and boarding-school for Chinese blind girls, which was accordingly opened in Hongkong.

At the opening of the school, four girls only were received as inmates. Gradually the number increased, and up to date 43 blind girls have been saved by our Mission.

The work that is done seems to be more and more appreciated by the Chinese. Recently several girls were given up to the home by their parents, not because they wanted to get rid of them, but to have them better educated and cared for than they possibly could be at their own home. Two native women-teachers (one blind) help us in the education of the girls; both have been well fitted for the work and make true and capable assistants.

The education imparted is entirely Christian, and at the same time thoroughly practical. It aims to fit the pupils for useful careers in life, and, so far as their blindness admits of this, to render them independent by teaching them to earn their own living.

With this end in view the girls, besides being instructed in the duties of religion, are taught to read and write under the Braille system.

They are also trained in doing knitting work and every kind of house work. The elder girls are taught to play on the harmonium. Every afternoon the children are allowed to divert themselves in the garden, and here their blithesome merriment is delightful to listen to.

We make it a rule to have each girl's eyes examined as soon as she comes to the house, to know if there is any hope of restoring her sight. In some cases it has been partly restored.

1 male and 2 female Chinese teachers and 65 female boarding pupils.

Our girls are divided into senior and junior schools; the former study forenoons and make lace afternoons; juniors reverse the order. At the close of last year, besides a careful examination by a committee of native teachers, Mr. Baller, of the C. I. M., kindly conducted an oral examination of the whole school and expressed himself well pleased with the result. We only attempt primary education, as the girls are mostly from very poor heathen families; the most advanced scholars have studied the Old Testament History, "Pilgrim's Progress," and a very simple little book on Science.

I believe Mrs. McMullan has plans for greatly extending the work when she returns, but since I have had charge, the conducting of Scripture classes and general supervision has been all that I could attempt.

One of the most useful purposes of the school is that we have been able to save quite a number of girls from being sold for immoral purposes. (Mrs. HUNTLER).

Since 1889, when the school was started, several young men have been drafted into the medical and theological schools, and now many are usefully employed in the work of the Mission. It is now proposed to increase the accommodation and to receive sixty boys into the school. The boys pay one-third of their boarding expenses, and provide their own books—except Christian books—and bedding.

(2). GIRLS' SCHOOL, known as the Dawson Memorial. This has only just been rebuilt after its destruction by the Boxers, but it has not been reopened. All funds for this were found by Mrs. MacFarlane, the Doctor's wife, who superintended the schools from the beginning.

Many of the girls have married preachers and teachers, and are now useful helpers at various centres.

NOTE:—Pupils from these schools, boys and girls, will be drafted into the Union schools and colleges of the North China Educational Union, which embrace the A. P. M., A. B. C., and L. M. S. The girls' school here was only started in the autumn of 1899, and was practically closed for two years while the principal was at home; the scholars are therefore not at all advanced.

(1). LONDON MISSION COLLEGE. 博學書院.

Rev. ALFRED J. MCFARLANE, M.A., Headmaster. English, Science, and Drawing.

6 native male teachers, 96 boarders, and 18 day students, all doing Collegiate work. Fees, \$100.00 per annum.

The College was opened April, 1899; 40 scholars, 3 Chinese masters. March 1904, 114 boys, 6 masters, and 2 pupil teachers, with two foreign masters.

Classes.—Morning, 9:30-12:30; afternoon, 2-4. Two terms a year; terminal and half terminal examinations in all subjects.

Subjects.—Chinese studies, mathematics, arithmetic, Euclid, algebra, English, science, history, and geography, drawing and printing, drilling, etc., and Scripture lessons.

The school has to the present been located in Chinese buildings in Hankow, but we have acquired a site by the Han River, three miles from Hankow, where the new school buildings will, we hope, be shortly erected.

(2). DAY-SCHOOLS; 3 for boys, 1 for girls, and 1 mixed, having 6 male and 1 female native teachers, 145 boys, and 25 girls.

Mr. Sparham writes: There are 17 day-schools for boys and 5 for girls, having 19 male and 5 female teachers, 289 boys, and 126 girls enrolled in Hupeh and Hunan. The smaller schools have from 12 to 15 boys, the largest have from 45 to 50 boys. The fees charged vary according to circumstances; the smallest fees paid being six hundred cash a year, the highest being six thousand cash a year. In the larger schools there are two teachers.

The current expenses of the day-schools for boys are about half met by the fees and half by a Mission grant.

The curriculum is as follow :—

1st Year.

Christian Trimetrical Classic. Dr. John.

Chinese Trimetrical Classic.

Numeration and Notation, Multiplication table.

2nd Year.

Gospel in Verse. Mrs. Arnold Foster.

Catechism. Dr. Griffith John.

Confucian Analects.

Addition and Subtraction.

3rd Year.

The Gospel of Matthew.
 Great Learning and Doctrine of the Mean.
 The Four Rules of Arithmetic.
 Geography. Rev. C. G. Sparham's.

4th Year.

Acts of the Apostles.
 Mencius.
 Weights and Measures.
 Geography and Map Drawing.

N. B.—The pupils often go beyond the scheduled requirements in arithmetic. Special care is given to writing and learning to recognize the Chinese characters.

There are five girls' schools, averaging about 40 pupils; the curriculum is similar to the boys' school, but somewhat modified. No fees are charged.

(3). MEDICAL SCHOOL.

THOMAS GILLISON, M.B., C.M., Edin.

P. L. McALL, B A., M.B., Ch.B.

The subjects studied are the same as in a British school of medicine. The text-books used are standard English works, translated *viva voce* with the help of the terminology suggested by the Medical Nomenclature Committee. There are at present 17 students. The course is four or five years, chiefly book work, with one or two years of practical work. Most of the students are sons of Christian parents; their ages vary from 18 to 35 years; four different missionary societies are represented. Fees \$50 per annum.

The medical school is connected with the London Mission Hospital, where on an average there are 50 in-patients all the year round.

(4). NORMAL SCHOOL.

Rev. C. G. SPARHAM and two Chinese tutors.

There is accommodation for 30 students; there are at present 12 men in residence. All are Christians of the scholar class; most have had some experience in school teaching.

The curriculum covers Scripture, Chinese classics and essay writing, arithmetic, algebra, Euclid, history, geography, astronomy, vocal music, elocution, pedagogy. All teaching is in Chinese. The course is for two years.

(5). DIVINITY SCHOOL.

Rev. WILSON H. GELLER.

2 boys' day-schools, with 2 male teachers and 50 pupils.

Mr. Geller writes:—Owing to the very rapid development of the church in this and three adjoining counties, Mr. Geller has been unable to continue the village schools. That at Wei-kia-wan is nominally a free day-school; the master's salary being provided in part by the Mission (2,000 cash per month) and part by the native church, augmented by fees from a few scholars. The number of scholars varies from 30 or more in the Spring to about half that number towards the end of the year. Text-books—Dr. John's Christian Trimetrical Classic, Mrs. Foster's Gospel in Verse, and Old Testament in Verse, Dr. John's Catechism, Mrs. Gillison's and Mrs. Jones' Catechism, Four Gospels and Acts. The teacher is a church member of many years' standing, and has taught the school since its inception in 1893.

The city school was commenced in 1896 as a purely elementary school, and no fees were charged. Now every boy pays according to his age, viz., under 8 years, 400 cash per term (3 terms per annum); under 12 years, 500 cash; and over 12 years, 600 cash. The subjects taught are as above, *plus* arithmetic, geography, and Chinese classic. The average number of scholars is about 25.

Mrs. Geller has a training home for Christian women, which she personally conducts, taking classes morning and afternoon every day, and also conducting family worship each morning. Some heathen women attend the classes, which are simply reading classes; the pupils being in nearly every case unable to read when they first come. After going through two easy Primers, they are taught to

read the New Testament in character. After about three months' daily study they are able to read anywhere in Mark's Gospel with comparative ease.

A free school for girls will be commenced, D.V., in 1905, Mrs. Fowler having trained a woman to take charge; she also hopes to give it daily personal supervision.

Hongkong.

H. R. WELLS.

There are no less than 20 primary or elementary schools in Hongkong, belonging to the London Mission Society, and situated either in the colony or on the strip of British territory opposite on the mainland. They are all free day-schools, but in one of the girls' schools there are 41 boarders. The superintendents, styled by the Colonial Government, "Managers," are: H. R. Wells and Helen Davies. The subjects taught are those usual in elementary Chinese schools. In one of the girls' schools English is taught, and in all of them arithmetic. Christianity is taught from special textbooks. For Chinese studies the usual school books are used, such as Three Character Classic, Thousand Character Classic, Classic of Filial Piety, Confucius, Mencius, etc., out of government hours. The new Primers and Readers published by the Presbyterian Press, edited by Wong Hang-t'ong, a new series of books called First Steps

in Composition 文學初階 and a series of lesson books published in Macao by Ch'an Tsz-po for the instruction of women and children are used in the various schools under the government's code. A new code was brought in last year, under which grants are given by inspection instead of by examination results. For Christianity are used Mrs. Foster's Gospel Rhymes, Sermon on Mount with commentary, Old and New Testament Stories, etc. There are 26 native teachers and assistants. The schools were commenced at different times as opportunities extended, and the government offered by its grants-in-aid-scheme increased facilities. The number of scholars on the roll in 1903 was 770 boys and 400 girls. The average age is about 11 years. Plague and consequent sanitary legislation have largely diminished the number of scholars.

Mr. Pearce writes :—

" Protestant missions in Hongkong owe a large debt to the British government for the excellent grants-in-aid-scheme, by which schools for Chinese children are maintained. Four hours per diem are required by the regulations to be devoted to government studies. In each school Christianity is regularly and systematically taught.

Both boarders and day scholars are received. A small number of the pupils who are Christians are received on scholarships at reduced rates. The College was founded in 1882 under the supervision of Dr. Y. J. Allen, and since that time more than 2,500 pupils have been admitted. Dr. A. P. Parker has had charge of the College since 1895. The enrollment for last year was 203, of whom 125 were boarders. In the preparatory and collegiate departments 14 native teachers assist the foreign teachers in giving instruction in the English language and literature,

history, geography, mathematics, science, and Christian books. A considerable number of the pupils have graduated from the preparatory and collegiate departments during the past five years.

THE SCHOOL OF ARTS.

The aim of this school is to offer the student opportunity for general culture such as may tend to develop him into an enlightened and useful man. The course of study marked out is such as will tend to broaden his views and arouse his interest in all that is best in our modern civilization.

Instruction is given through both the Chinese and English languages. The history and literature of China has a prominent place in the course of study. Every effort will be made to lead the student to appreciate his native land, to understand what her scholars and great men have wrought in the past, and her rightful demands upon her intelligent sons of to-day,—demands that can be met only through broad culture and enlightened thought.

Western Learning is taught through the English language. That this may be done successfully much time and effort has been devoted to improving our methods of teaching English. We are now using the "Series System" adapted from Prof. Gouin. It is a natural method that trains the ear and tongue as well as the eye of the student, enabling him to speak, read, and write more correctly than is possible by the old methods, and also in shorter time. Mr. R. S. Anderson has prepared two little books of "Series" for the use of the Chinese student that we have found very helpful. The student

who has passed through the Preparatory Course in English is prepared, through means of the English language, to study the different departments of Western learning embraced in the College course.

HISTORY.

The missionaries of the Methodist Episcopal Church, South, met in Soochow in the fall of 1899, and after thoroughly discussing the educational outlook decided to unite all the higher educational work of the Mission in Soochow, and there to build up a university with literary, theological and medical departments; other departments to be added as deemed expedient.

This plan having been decided on, it was determined to lay it before the gentry of Soochow, as their approval and help was necessary to full success. During the winter a general meeting, attended by a large number of the officials and gentry of Soochow, was held in the Municipal Hall, on the Concession, outside the city. The meeting was presided over by Mr. John Goodnow, Consul-General for the United States at Shanghai, and addresses were made by Dr. Timothy Richard and Dr. Y. J. Allen. Considerable enthusiasm was manifested, and the proposal to establish a university was heartily welcomed by the gentlemen present, and many promised help.

Immediately after this meeting subscription books were opened and a liberal response came from Soochow, Nanzing, Shanghai, Chang-shuh, and Wu-hsi. The amount subscribed within a few weeks aggregated about \$20,000.00.

Greatly encouraged by this cordial reception of the plan, the next step was to secure the necessary land. Adjoining the property already owned by the Mission just inside the Fu Mén, was a large open lot, suitable for the purpose in hand, if it could be purchased. Upon invitation, Mr. Goodnow, Consul-General for the U. S., visited Soochow and had an interview with the Fu-tai, Lu Chnan-lin, with reference to purchasing this lot for the proposed university. Mr. Goodnow's statements were favorably received, and the Yuan-ho District Magistrate was instructed by the Governor to secure the land for the university. With this backing there was but little difficulty in buying about six acres, which, joined to the land already held, made about eight acres.

The year 1900 was the Boxer year, and the troubles in the North interfered somewhat with the work in hand. For a while nothing could be done in China, but the plans for the projected university had been enthusiastically received in the United States, and during this Boxer year money was freely contributed to build up a university for China's benefit in Soochow. But it was at the General Missionary Conference held at New Orleans April 24th, 1901, that the enthusiasm reached its height. During the Conference Sessions the Soochow University was made prominent. "On Sunday evening a brief address on the proposed Soochow University was given by Bishop Wilson who had just arrived from China. He was followed by Bishop Galloway in an eloquent setting forth of "Lessons from Master Missionaries." A spontaneous and unsolicited collection was actually thrust upon the speaker for the Soochow University. The whole collection amounted in one evening to \$50,150.00 gold. The entire amount subscribed at New Orleans and throughout the church was now about \$80,000.00 gold.

The liberal amounts contributed in the United States and in China made it possible to proceed at once to the erection of the main building of the university; and on December 12th, 1901, the contract for the first building of the university was let, and the work began about two weeks later.

On March 8th, 1901, the college was opened at the Fu Mén, in the old buildings of the Buffington Institute. Full courses of study, both in Chinese

and English, were marked out. The institution aims to give broad, thorough education. While certain students from China will be able to go abroad for study, they will always be the exceptions. If young China is educated, the education must be gained at home. Hence the Soochow University will strive to furnish a course of study not at all inferior to that followed by first class colleges in the United States. We are fully conscious that this standard cannot be reached at a bound, that time will be necessary,—but as the students advance and the teaching force grows in number and experience, we have good hope of carrying out the projected plans.

GENERAL INFORMATION.

Location.—The university is located in the south-east corner of the city of Soochow, just inside the Fu Mén. Though inside the city, within easy reach of its large population and having all the advantages of city life, yet the university is away from the business centre, from the crowded streets, and is surrounded by the quiet of the country.

University Building.—The main building of the university is just completed. It is a large, handsome, three storied building, built in the best style, well ventilated and well lighted, adapted in every way for the work. This building contains class rooms, offices, library, laboratories and a large assembly hall. It is furnished throughout with good American furniture of latest patterns.

Light and Water.—Friends in America have kindly sent out to us a Colt's acetylene gas generator of sufficient power to supply the main building, dormitory and residences with this beautiful light. Through the same source we have also received an engine and pump to supply our buildings with water.

For twenty years, 1882-1902, this was known as the Soochow Hospital Medical School. It was begun by Drs. W. R. Lambuth and W. H. Park in connection with the Soochow Hospital. After the establishment of the woman's hospital the ladies joined in carrying on the school, and two sets of certificates were used for

graduates: one in the name of the men's hospital and one in the name of the hospital for women; the wording in other respects being the same for both. The course of study has extended over five years from the start, and the graduates, scattered over various parts of the Chinese Empire, maintain themselves so well, on the whole, as to give the school a reputation second to none in the country.

The PEKING UNIVERSITY, located in the city of Peking, China, was granted a certificate of incorporation on June 25, 1890, by

the Legislature of the State of New York, in the United States of America, and is under the general control of a Board of Trustees residing in and near the city of New York.

The object of the University is "the establishment and maintenance of colleges or other educational institutions, which shall be founded and conducted upon strictly Christian and evangelical but not sectarian principles, and to aid the young of the Chinese empire and other countries in obtaining a literary, scientific, and professional education."

The University comprises the following departments : College of Liberal Arts, Wiley College of Theology, College of Medicine, Preparatory School (with intermediate and primary departments), and the Industrial School.

(2). GIRLS' HIGH SCHOOL.

Late last autumn the beautiful and commodious buildings for the Girls' High School were finished, and the girls, after an absence of two and a half years, were brought back to Peking. The presence of this school not only increases the Asbury congregation by more than two hundred, but adds greatly to the harmony and life of all our Christian services.

(3). SOUTHERN CITY DAY-SCHOOL.

Prof. H. E. King was appointed to this charge. During the previous year a few buildings, suitable for a parsonage and day-school, were built. Early last autumn a day-school was opened.

Soon there were over 50 boys in attendance. We had not planned for so many, and have been compelled to send some to other buildings in the vicinity, secure another teacher, and divide the school.

(4). PEKING AND CH'ANG LI COMBINED SCHOOL.

The new school-buildings in Peking were not ready for use until the 25th of December ; consequently school did not begin until that time. Our hot water heating plant is invaluable ; 216 pupils have been enrolled during the year. They have provided all their own clothing and bedding and paid \$100 gold toward the expenses of the school.

100 are enrolled in the Primary grades.

(5). PEKING TARTAR CITY DAY-SCHOOL

has had an enrollment of 30 pupils; an average attendance of 18; 8 children from this school have entered the Peking boarding-school.

(6). PEKING STATION CLASS.

Mrs. Jewell kept up the study class for women during the summer. In the autumn they were given a few weeks' vacation. When the class was re-opened Miss Shockley took charge of it. The number of women, small at first, gradually increased until an enrollment of 18 was reached. The average attendance has been 10 or 11. The majority of the women were church members.

We have a large number of Chinese official friends who support boys, and thus the school costs the Mission very little. The boys are nearly all from Christian families, and we always keep places open for Christian boys.

The total appropriation for last year from the Mission was \$300 for teachers' food, books, light, etc.

(2). DAY-SCHOOLS.

Rev. Geo. W. Verity reports 7 schools for boys, with 7 male teachers and 60 pupils.

About 50 pupils are in attendance at the boys' school. Good work is being done, and there is a prospect of securing some excellent church workers from among the students.

The girls' school, also, under Miss Steer's efficient management, is prospering. Coming years and generations only can demonstrate the full efficacy of this important work.

We rejoice in the opportunity which is afforded in the medical work of the Woman's Foreign Missionary Society of telling the Gospel story. The people are learning to have more confidence in the foreign doctor, seeing the success Dr. Benn has in treating their ailments.

In the winter, a number of men came, spending several weeks in Bible study. Very faithful and efficient work has been done by Mrs. Verity in the Women's Bible School. It is, indeed, a cause for great rejoicing that women, old and young, who but a short time ago were either hostile to the Gospel, or knew nothing of it, come, bringing food and spend months in studying the Word of God, which is able to make them wise unto salvation. (*Extracts from Shantung District Report.*)

Mr. Headland furnishes the following statistics for Chihli and Shantung provinces: Boarding and high schools—6 for boys and 2 for girls. Day-schools:—for boys, 39; for girls, 7. Native teachers, 45 male and 15 female; scholars:—male, 913; female, 301.

There are two departments:—the Primary, where Chinese classics, mandarin Romanized Bible, elementary sciences, arithmetic, and history are taught; the High School, where the English language, mandarin, mathematics to solid geometry, the sciences, and history are taught. The course of study covers ten years; five in each department. The first class, consisting of 6 students, graduated in January, 1904. The average age was 24 years. Three of the graduates are preachers, one is assistant editor of the Kinghua Romanized *Revivalist*, and the other two are teachers in the school. Some of the text-books used are Faber's Civilization, Mackenzie's History of Christian Civilization, Steel's Chemistry (translated), and Martin's International Law.

Students attend classes four-and-a-half hours a day, in the morning or in the afternoon, according to the classes to which they belong. About two-thirds of the students spend the other half of the day at industrial work.

Scholarships are sold in the lower school for twenty dollars, and in the high school for twenty-five dollars. Non-Christian students are charged eight and twelve dollars a year respectively. Board costs \$1.80 per month.

1 native male and 4 female teachers and 60 boarders, divided as follows: Kindergarten, 20; Primary, 30; and Academic, 10.

This school was opened as such July 2nd, 1884, and has been under the same superintendence ever since. The enrollment to date is 140. The school accommodates about 60, which is the number at present in attendance. The average age of the school children now attending is 14½ years.

A class of two graduated in 1897. A second class of seven graduated in 1900.

Miss White came in 1892, and had the music in charge until 1902, since which time she has been dividing her time between the three schools of Kiukiang, Nanking, and Chinkiang.

Miss Grace Crooks came in February of the present year, and is the prospective teacher of sciences. The sciences have been mostly, and are still, taught by Mr. Tung, the head teacher. There are four other assistant native teachers, graduates of the school. English is taught as a branch to every child.

Fees are paid by all now entering of not less than ten, nor more than fifty dollars per year. Contracts are made, binding students to remain until 18 years of age at least, or until the course is completed. A promise is usually required to serve the school or the mission supporting the girl free for one or more years if her services are desired. Natural feet and manual labor are among the requirements of the school.

The school has always received one or more orphans from whom to secure its own helpers, but makes no distinction in treatment or requirements between these and "paying" girls.

COURSE OF STUDY.

8 native male teachers, 113 boarders, and 89 Academic, 4 Collegiate, 10 Theological, and 9 Medical work.

Nanking University was established by the Central China Mission at its annual meeting, November, 1883, at the suggestion and by the advice of Bishop C. H. Fowler, who presided over the meeting. Arrangements were also made at that time for money to purchase a site, and the general plan of the undertaking was sketched by the Bishop. The appointment of the president and the deans of two faculties was the first real step taken.

During the early part of the year 1889 a small school was opened in the home of the president, which was entirely self-supporting. Later in the year a few pupils were taken, whom it was necessary to provide with board, they

furnishing bedding, clothes, books, and all other necessaries. The year closed with 15 pupils, all of whom were studying and living in the president's home, no building being then available.

Shortly after annual meeting, 1889, Mrs. E. Sluper Davis, of Boston, visited Nanking, and, being impressed with the importance of the work, made the first gift which it was the honor of the University to receive. Her gift of \$1,000 was afterward supplemented by enough from her two sisters, Mrs. J. W. Harper, of New York, and Mrs. E. P. Dutton, of New York, to erect a chapel in memory of their deceased father, the late Honorable Jacob Sluper, of Boston. Through their kindness these gifts were allowed to be used temporarily to supplement a grant of \$1,800 from the General Missionary Committee, and thus erect a school building which served both for school and chapel. During the spring of 1890 Mrs. Philander Smith, of Oak Park, contributed \$5,000 for the erection of a theological school to be known as the "Fowler School of Theology." Later also another gift came from the Missionary Board, which enabled the University to free the gift of Mrs. Davis and her two sisters from the school building and commence the erection of the memorial chapel.

In February, 1890, the school entered its new quarters and was increased by the accession of 8 pupils from the Wuhu Institute. During June, 1890, 10 primary pupils who had been preparing for medical studies at the Nanking hospital were also added to the school.

Students come from all parts of the Yangtze Valley, as well as distant provinces of Kwan-tung and Chih-li and Hunan. Most of the students are self-supporting, but none receive more aid than their board. The intention is that all who receive aid from the school shall repay what they have received as soon as they enter upon their life's work.

The University is located in the north part of the city of Nanking. Its site is high and healthy and embraces about fifteen English acres. To the west of the grounds is a large tract of land entirely open, which can never be built up, but on the other three sides it is in close touch with the busy city.

The situation is only about three-quarters of a mile from the Viceroy's yamen.

Many marks of appreciation have been shown to the school by the people, and it has attracted a good class of students. Very favorable notices of the school were given by the leading native newspapers of Shanghai, which have attracted a good deal of attention and brought many letters from leading men in distant parts.

At the close of the year 1891 His Excellency Viceroy Liu, at our request, sent the Shan-yuen Magistrate, the Kiang-nung Prefect and the Intendant of Circuit to inspect the school and report to him. After receiving this report His Excellency congratulated us on the good work which we were doing and wished us continued success.

This academy, situated on Kolongsu, was established in April, 1881. The foreign instructors are supplemented by 4 native teachers. About 270 students have been enrolled since the opening of the academy. The present number of pupils, all of whom are boarders, is 66, with an average age of 18. This number is much larger than the attendance has been during the two or three last years, and is due to a change in the curriculum, raising its standard and introducing English. On account of ill-health my wife was compelled to give up the teaching. As there is no lady missionary at the station I have to give the lessons in singing, religion, and geography in the girls' school. In both schools there are forty hours a week: six hours are for Bible lessons, two for geography, two for arithmetic, two for singing, two for Romanized, the rest of twenty-four hours are spent for Chinese writing and reading (classics and New Readers, Wang Hang-tong.) The other two schools are at out-stations in Hamsai and Nāmshā; except in the lessons in religion, given by a native Christian teacher, they do not differ much from ordinary Chinese schools.

A boys' boarding-school is in Tong-ha (or Thongthauha), under the supervision of Rev. J. Bähr. As far as I know there are about 25 boys in the school. In our little theological seminary in Tung-kun city there are about 10 or a few more scholars. (Mr. Bettin.)

THE SHANTUNG UNION COLLEGE. 廣文學堂.

Rev. P. D. BERGEN, M.A., D.D., President. Department of Chinese Language and Literature.

Rev. S. COULING, M.A. (Edinburgh.) Department of Natural Sciences.

Rev. E. W. BURT, M.A. (Oxford and London.) Department of History and Philosophy.

Rev. H. W. LUCE, B.A. (Yale.) Department of Mathematical Sciences.

The Department of Religious Instruction is conducted jointly by the faculty, each man taking part.

Faculty consists of four foreign and eight Chinese professors.

Students.—120 students are in attendance, all but six of whom are in the College classes proper.

The College is under the care of the American Presbyterian and English Baptist Missions. It has been formed by what was known for many years as the Tengchow College, situated at Teng-chow, Shantung, and the Ching-chow-fu High School of Ching-chow-fu, Shantung.

The Tengchow College, founded by Dr. Mateer, and long under his direction, and later having for its president Dr. Watson Hayes, has sent its graduates into many of the provinces of China as teachers and evangelists. This fact, together with the text-books prepared by Drs. Mateer and Hayes, have made the College widely known as an institution where a thorough Christian and scientific education was given. The Ching-chow-fu High School, for many years under the charge of Rev. S. Couling, M.A., has been characterized by high ideals and excellent instruction.

These two institutions have now united. Both Missions are represented on the faculty, and the College is governed by the American Presbyterian and English Baptist Missions, through a joint Board of six directors.

AIM.

As indicated in the printed "Basis of Union", the aim of the College is "to give a liberal education of a distinctively Christian character to young men, chiefly from Christian families."

Students from other Societies, or from Presbyterian Missions outside the province are welcomed, but it is considered just that societies sending students should defray the cost of board, lodging and other College expenses of the students, amounting to \$25 yearly.

Students defray their own travelling expenses to and from the College. They also purchase their own text-books, which are furnished them by the College at cost.

Students, without exception, are required to be present at the religious services of the College and submit to all regulations and discipline.

The College is equipped with biological, chemical, and physical apparatus, sufficient for the purposes of instruction in these departments.

The College possess an astronomical observatory fitted with a ten inch reflecting telescope.

The main College building is heated by steam, lighted by electricity, and has a good water supply.

Students have daily access to the College library and reading room.

Medical attention is rendered without charge.

Daily physical drill is compulsory.

Literary Societies.—There are two of these, and students are expected to connect themselves with one or the other of them.

Y. M. C. A.—The College has a flourishing association, which gives not only opportunity for the cultivation of the spiritual life, but also for active evangelistic work in the villages.

DEPARTMENTS.

The College is organized into five departments, as follows:—

I.—The Department of Religious Instruction.

The foreign members of the faculty all share in the work of this department.

II.—Department of Chinese Language and Literature.

In charge of Rev. P. D. Bergen, M.A., D.D., assisted by Messrs. Be Ru-hu and Lo Sheng-yin.

III.—Department of the Natural Sciences.

In charge of Rev. S. Couling, M.A., assisted by Messrs. Sung Chwan-dien and Be Yu-djang.

IV.—Department of the Mathematical Sciences.

In charge of Rev. H. W. Luce, B.A., assisted by Messrs. Liu Gwang-djao, Wang Djih-djung, and Wang Tien-chu.

V.—Department of Philosophy and History.

In charge of Rev. E. W. Burt, M.A., assisted by Mr. Liu Yu Feng.

FEES.

For students from the American Presbyterian Mission or English Baptist Mission in Shantung a minimum of 12,000 small cash (\$8.00) per year is charged as food subscription.

Students able to pay more are expected to do so up to the actual cost of their food; the amount charged each student being fixed after consultation with the pastor from whose field he comes.

Mr. DANIEL ENTWISTLE, Master.

3 native male teachers and 24 male boarders.

Organized by Mr. Hill, who bought a lot for the plant. Rev. J. Crossett assisted in putting the work on a solid basis. In 1889 Mr. and Mrs. Poole were for a time in the school. In 1890 Mr. Dowson arrived from England and took charge of the work; during his stay the industrial work was successful,—basket making, hammock-knitting and chair-caning being carried on. In 1891 Mr. Dowson returned to England and the work fell on Mr. Yu, who had been the main help all along. In 1894 Mr. Emberley created a market for the school's industrial products, but on his departure the industrial work was dropped. In the interim Rev. G. A. Clayton had oversight of the work and Mr. Entwistle took charge in 1897. During Mr. Entwistle's absence in England Mr. and Mrs. Dempsey lived in the school. In 1900 the present master resumed his former work, and it is prospering in his hands.

COURSE OF STUDY.

The Tung Wen Institute was founded in 1898 by Mr. A. Burlingame Johnson, United States Consul at Amoy, and six wealthy Chinese merchants—Yap Ching-tee, Tan Ah-soon, Khoo Jeow, Poh Luk-kuan, Khoo Chin-siong, and Tan Poh-hak.

The Tung Wen Institute is a school organized and conducted with three principal objects: to provide opportunity for Chinese boys to get a thorough knowledge of the English language, to give them a sound business education, and to provide elemental instruction in mathematics and the sciences. Religious teaching of all kinds is prohibited, but a respectful toleration of all the various beliefs is insisted upon.

Great care is exercised in the selection of teachers; not only to have them well equipped mentally but also morally. Particular attention is given to conversation, composition, and grammar, and the results of the work in these branches are pointed to with pride.

From Prospectus.—"For several years the Municipal Council of Shanghai has felt that something should be done to help the Chinese here to understand better the new conditions of modern

life and the importance of universal intercourse, so that they may take in that intercourse a part not inferior to that of any other community in other nations.

"To give effect to this feeling the Council, as a beginning, granted a large piece of land on which to build a school for the Chinese, and has promised also to give an annual grant-in-aid of the school.

"The Chinese gentry also felt a deep interest in this movement, and have subscribed the funds necessary for erecting the school and two houses for English masters."

These handsome buildings, which will accommodate 400 pupils, are situated at the corner of Cunningham and Elgin Roads, near the Railway Station.

"The aim of the course of studies is to educate pupils up to the highest standard of elementary education in English and to prepare them for the equivalent of the *Siuc-tsai* degree in Chinese. In other words, the aim of the school will be to train men so that they may be well equipped with sound, useful knowledge, and be reliable and noble in character.

"One-half the time will be devoted to studies in the English language and the other half to studies in the Chinese language. One of the studies in the Chinese Course will be the Mandarin language."

Last spring sixty schools were opened in one day in this city. The movement is a good sign, but the teaching in most of them is purely nominal. In fact in this so-called educational reform throughout the empire the *nominalists* far outnumber the *realists*.

The government university of the province of Shansi originated in the settlement of the provincial cases that arose out of the Boxer troubles of 1900. Dr. Timothy Richard was invited by the Chinese government to become the representative of the Protestant missions and adjudicate their claims. He accordingly met the Plenipotentiaries—Li Hung-chang and Prince Ch'ing—in Peking, and it was mutually agreed that instead of paying indemnities on the lives of those missionaries who had been so brutally massacred in Shansi, a fine of Tls. 50,000 be levied annually on the province for the period of ten years, the entire proceeds to be applied towards the establishment of a thoroughly efficient educational institution wherein *literati* of the province might secure a liberal education on modern lines—the aim being to remove, if possible, the lamentable ignorance which was the main cause of the Boxer outbreak. The administration of the institution and its funds were to be in the hands of Dr. Richard for ten years, after which date the whole establishment, with its appurtenances, would revert to the provincial government. A document embodying these propositions was drawn up and ratified. Before, however, it was possible to originate a college on these lines, the central government had issued several edicts commanding the establishment of governmental universities throughout the empire. When, therefore, in the spring of 1902, Dr. Richard reached T'ai-yuan-fu, he found that already energetic measures had been taken towards establishing a governmental institution similar to the one he was under contract to initiate. As there were neither men nor means for carrying on two rival colleges in the same city, negotiations were at once begun with a view to their amalgamation. After prolonged deliberations a new contract was made out and provisionally signed by the highest officials and some of the leading citizens. The governor then sent it along with a memorial to Peking, where it was ratified by the Imperial seal. By that instrument the provincial and western colleges were united as one Imperial university, and its articles declare the constitution of the institution. Public interest will centre on the article that stipulates that there shall be two departments:—

1. A Chinese Department, to be officered and controlled by the Chinese themselves. In that department all the students reside, but the teaching is confined to purely Chinese studies and only for those students who attend the Chinese Department.

2. A Western Department, to be managed by foreigners for ten years. The teaching is confined to purely western subjects, to which the students of the Western Department give their undivided attention.

BUILDINGS.

In September, 1902, plans were agreed upon and a contract signed for the erection of a complete set of buildings for the united university. A good site was secured in the S. E. corner of the city and the work begun in the fall. Dormitories, classrooms, and management buildings for the Chinese department, occupy the west half of the site. The other half is set apart for the buildings of the Western department, comprising the following : An assembly hall, library, gymnasium, museum, and guest room ; classrooms, large and airy, for engineering and drawing, chemistry with laboratory, physics with laboratory, medicine, mathematics, law and literature. In the N. E. corner, residences are being built for the foreign professors. In the South end business premises, residences for the Chinese professors, and rooms for attendants will be erected.

During the past year the Chinese Department has been accommodated in the premises usually exclusively used for the triennial M.A. examinations. The Western Department has been carrying on its work in the "Imperial Halls," built some thirty years ago by H. E. Chang Chih-tung for the reception of Imperial ambassadors or other high officials passing through or having business in the province.

PROVINCIAL EDUCATION.

Within the past three years there has been a decided change in the educational régime of Shansi province. About the time the Court returned to Peking from Hsian a series of edicts were issued commanding a reorganization of the educational system of the empire. A minister of education was appointed in Peking, a central and Imperial university was to be reorganized in the capital, a government university was to be established in every province, and agricultural, commercial, medical, mining, and other colleges were to be opened at suitable centres. To assist in carrying out these extensive reforms educational specialists were engaged from Japan. Under their guidance the minister of education drew up an elaborate and detailed scheme for national education, embodying graded courses of studies for elementary, middle, advanced, and normal schools, special courses for universities, and technical colleges. That extensive programme received the Imperial sanction and was forthwith printed and circulated as a "Yellow Book" to all the higher officers of the empire.

As a result partly of that scheme and partly because bound by an agreement with Dr. Richard to establish a university, the provincial government of Shansi made an earlier start and a further advance in educational reform than any other province—Chihli excepted. In June, 1902, an Imperial university was opened. It consists of three departments :—

(1). Chinese Department, for the prosecution of purely Chinese studies, with 200 students.

(2). Western Department, for exclusively Western subjects. In this department there are 200 students, six foreign professors, and eight Chinese

teachers. Instruction is at present being given in the following: (a) mathematics, (b) English, (c) geography, (d) biology, (e) chemistry, (f) history, (g) physics, (h) physiology, (i) drawing, (k) gymnastics. Only the Chinese language is used.

(3). A Preparatory Department where there are 100 students waiting to enter one of the other two departments.

In the provincial capital there is an education bureau controlling the new education of the whole province, which at present consists of the following:—

Eighty-one ELEMENTARY SCHOOLS established in as many district cities. The course is for three years and the subjects are: Confucian morals, Confucian classics, Chinese composition and characters, Chinese history, geography, arithmetic, and gymnastics. One of the Chinese subjects may be displaced by either commerce or agriculture at the discretion of the magistrate.

Eight MIDDLE SCHOOLS established in as many prefectural cities. The course is planned for four years and the subjects are: Confucian morals, Confucian classics, Chinese composition, mathematics, history, geography, foreign languages (English and either French or Japanese), drawing, genera, science, physics, chemistry, and gymnastics. So far no high school has been established, nor any normal college opened.

In the capital (T'ai-yuan-fu) there are the following SPECIAL COLLEGES:—

1. An Agricultural College with 100 students under the tuition of two Japanese professors, one for agriculture and another for forestry.

2. A Manchu College for Manchus only.

3. A College for Expectant Officials, who are supposed to study law and government and be examined once a month; promotion to depend on the result of examinations.

4. A Military College with 120 students and eight teachers: one for English, one for German, three for Chinese, and two for drill.

5. A Police Training Institute with two Japanese instructors. Although the present educational programme is utterly inadequate for the needs of eight millions of people, it is, nevertheless, a decided advance on the former purely Chinese education. Actual drill and language study are a great advance on hurling the discus and shooting an arrow; so mathematics and science form great improvement on the fossilized curriculum of the ordinary school.

THE GOVERNMENT SCHOOLS.

Mr. EDWARD A. IRVING, Inspector of Schools.

"The government schools of the colony include Queen's College (a secondary boys' school, 1,453 on annual roll, secondary education in upper school, 400 boys), with an average attendance of 940 scholars, mostly Chinese. The Kowloon school, exclusively for children of both sexes of European British parentage, with an average attendance of 46; the building being a gift to the colony from a Chinese resident. The Belilos Girls' School, a mixed school, with an average attendance of 95; and three Anglo-Chinese district schools, with an average attendance of 265. All the above schools have staffs wholly or partly composed of European teachers. There are also 6 vernacular boys' schools and one vernacular girls' school, with a total average attendance of 271. Some scholarships have been founded by government and by private individuals for higher education. There is also a Police School and a College of Medicine for Chinese.

Besides the government schools there are a number of denominational schools (managed by representatives of various religious societies) which receive grants from the government and which are subject to government inspection. The average attendance in these schools was 3,542 in 1903."

EXTRACTS FROM 1903 REPORT.

The Committee on Education drew attention to the difficulties attendant on the co-education of young English speaking children with Chinese boys who are beginning the study of English. The Chinese boys are usually older by several years, and often older for their ages than the English-speaking children; a course of instruction, calculated to develop infant minds, is quite unsuitable for them; they need to spend most of their school time in the acquisition of English, especially colloquial, and also to spend some time on improving their knowledge of written Chinese. The difficulties in the way of teaching the two classes of children together are obviously great. The subject was fully discussed during the year, and finally the following *dictum* of the late Governor Sir Henry Blake received the approval of the Secretary of State for the Colonies:—

"In my opinion the difficulty may be surmounted by arranging that Chinese boys shall not be taught English in the same class as non-Chinese boys, until it is found that they have acquired a sufficient knowledge of English to understand the teaching given to the class in that language. This will prevent the English boys being retarded without violating the principle that education shall be given equally and indiscriminately to all races."

THE GRANT CODE.

One of the most important changes recommended by the Committee on Education was the substitution of a new code for the then existing Grant-in-Aid Code. Accordingly the present Grant Code was drafted at the beginning of the year. I met the managers of the schools several times and discussed its provisions fully with them. I am indebted to their criticisms for several beneficial amendments. In its final form the draft code was circulated among managers and met with general approval. It came into force on the 1st January, 1904; but managers who cared to do so were permitted to bring their schools under it from the 1st July, 1903, and about one-half of them, including the managers of St. Joseph's, the Italian Convent, the Diocesan School for Girls, and most of the London Missionary Society's schools and the American Baptist Mission's schools, elected to do so.

The following are some of the points of difference which distinguish the existing code from the old code:—

(a). The grants are paid upon the results of the inspector's observation throughout the year, and not upon the success or otherwise of individual scholars at an annual examination.

(b). The code recognized that schools employing a well educated staff are worthy of special recognition by giving a higher rate of grant, paid in sterling, to such schools. The staff must, in order to meet the requirements of the code in this respect, be partly composed of Europeans, or natives of very unusual qualifications.

(c). The old code gave grants to schools giving a Chinese education on the time-honoured Chinese lines, as well as to schools in which Portuguese or German was the medium of instruction. The present code recognizes only modern Western methods of imparting instruction, and insists that either English or Chinese must be the medium of instruction; other languages may of course be studied as class subjects.

KOWLOON SCHOOL.

The Kowloon School for European British subjects has now been open for nearly two years. The attendance during 1903 averaged 46.4 as compared

with 39.3 in 1902, an increase of 18 per cent. The greatest number of scholars present on one day was 58. The revenue collected under fees amounted to \$1,854.50 as against \$924 in 1902 (eight months).

THE BELILIOS PUBLIC SCHOOL.

I drew attention last year to a falling off in the number of attendances, which I attributed partly to the doubling of the fees charged in the latter half of 1901 and partly to the competition of other schools. This falling off is best shown by the following table, which eliminates the violent fluctuations of the summer months when attendances are mainly regulated by the severity or mildness of the plague.

THE DISTRICT SCHOOLS.

These schools were entirely re-organized at the beginning of the year. Special attention has been paid to the improvement of the Chinese masters in the method of their teaching, especially in the method of teaching English.

Normal Class.—A normal class has already done much to improve their knowledge of the science of teaching. They have met every Saturday and have given lessons in turn to a class, which lessons have been followed, after the dismissal of the class, by discussions upon the matter and treatment, and have been subjected to criticism. The Chinese masters have shown themselves willing and quick to learn; and this is the more satisfactory since, if a knowledge of English is to spread rapidly, we shall have to depend upon Chinese masters for the instruction of the lowest standards.

Fees.—The fees paid by the scholars have gradually been raised, till now \$2 a month is paid by new boys, and \$1 a month by the scholars already in attendance. At Yaumati fees were charged from the middle of the year only. The total of fees collected was \$1,507.50, compared with \$152.50 in 1902, and *nil* in 1901.

Attendances.—The schools have been throughout the year about as full as the staff would warrant. Attendances have as usual been extremely irregular. The average number in attendance at the three schools combined was 265 (Saiyingpun 95, Yaumati 74, Wantsai 96).

GRANT SCHOOLS.

The grant code was adopted by some schools at the beginning of July, but I am not yet able to report definitely as to its effect. The Italian Convent and one or two other Roman Catholic schools drew up what appear to be very sound courses of study under the provisions of the code, and will, I feel sure, be materially improved by them. Unfortunately the necessity of holding the winter examinations in the schools which decided not to come under the code at once, prevented me from continuing to examine the proposed courses of study of those that did come under it.

Of the Anglo-Chinese schools, three at least—the Roman Catholic Cathedral School, the Ellis Kadoorie School, and the St. Stephen's Anglo-Chinese

School—have given evidence of a desire to attach due importance to the study of spoken English. The last is an encouraging example of a well-conducted school under Chinese masters only. It has greatly improved in the last two years.

The vernacular schools have on the whole greatly improved in the last two years. This improvement is naturally most easily detected in those which elected to come under the new code at once, and which were thus freed from a hard-and-fast course of study. The schools under the management of the Rev. H. R. Wells, of the London Mission, show great promise. Instead of the nursery classics—the Three Character, and the Thousand Character—which were learned by heart without any idea of their meaning, a regular course of illustrated Chinese Readers has been adopted, and the change has proved exceedingly popular. These Readers are the means of teaching not only the characters and their meanings, but also the simple lessons which are usually found in English Readers. Local geography is taught throughout the schools, and not only (as hitherto) to the senior scholars. Mental arithmetic is, in at least one girls' school of the Wesleyan Mission, being taught to every class with great success.

STATISTICS.

The following table shows the number of scholars in average attendance. This method of calculation underestimates the number in receipt of education, but reckoning by the total enrollment errs still more on the side of exaggeration.

| <hr/> 189 | 1,033 | 2,628 | 4,424 | 8,085 |

The most noticeable feature is the increase of scholars in Anglo-Chinese schools and the corresponding though slighter decrease in the numbers of the vernacular schools. One Anglo-Chinese district school was closed at the beginning of the year.

The scholars in the English schools have also increased largely, more so than the figures show, as I have omitted the figures for four Portuguese schools which have just been closed.

The figures under the head Private Schools are interesting, as they show that the Chinese themselves are inclined to spend more time and money on learning English and less on learning Chinese.

Preparatory Department—Course of Study.

The full course of study occupies four years. Generally speaking the classes are divided as follows:—

Children between the ages of 5 and 7 join the Kindergarten.

Children between the ages of 7 and 8 join the Transition Class.

Children between the ages of 8 and 9 join the Lower 1 Form.

Children between the ages of 9 and 10 join the Upper 1 Form.

Children entering at 7 years of age should, therefore, be able in:

Arithmetic—To understand Numeration to thousands, Simple Addition, 2 and 3 times tables.

Reading—To have an understanding of Phonetic System and ability to recognise words of 3 and 4 letters.

Writing—To do easy Transcription.

Children entering at 8 years of age:

Arithmetic—To work Simple Addition, Subtraction, and Multiplication

sums, to know Numeration, and the Multiplication Tables to 12 times.

Grammar—To understand the definitions of the parts of speech with simplest examples.

Reading—To read well Book 1 of any such series of Readers as Collins' "Graphic" or "Royal."

Spelling—To spell words of medium difficulty in those Readers.

Geography—To know the outstanding physical features of England; and the names of the countries of Europe with capitals.

No child is admitted over 8 years of age, save under exceptional circumstances, and then only if able to work with the highest Form. It is desirable that all boys should leave the Preparatory Department before they reach the age of ten, and in all cases where it is possible to do so this is arranged.

When pupils leave, if the full course is taken, their work has included :—

Scripture—A three years' course in Old Testament History and the study of one Gospel each year.

Arithmetic—The Simple Rules with Long Division, Compound Addition and Subtraction with problems, easy examples in Compound Multiplication, and Division, and Reduction.

Grammar—Simple parsing and analysis.
